

SCIENCE LITERACY ARTICLES - SUGGESTIONS FOR USE

This Science Literacy Article can be used in a variety of ways. The following are several suggestions for use within your classroom.

1. Use to improve literacy and/or as a cross-curricular activity.
2. Use to reinforce key science concepts.
3. Use to teach/demonstrate important reading strategies.
4. Use as class notes and/or class reviews.
5. Use as an extra emergency substitute plan.
6. Use as a short quiz, assessment, or checkpoint.
7. Use in small groups, pullouts, or tutorials.
8. Use as a homework assignment.

This resource comes with a regular version and a modified version of the article. A **fully editable** companion question document and answer key are also included. You may choose to print the articles as class sets or allow your students to make notes, highlight, underline, and show various other strategies.
