SCHOOL AGE CHILD CARE

This will be my seventh year as S.A.C.C. Coordinator for Northwestern. I always look forward to seeing “my kids” and all the Northwestern students again.

There will be lots of things to play with, invent and explore. There will also be new centers and new activities. I look forward to seeing everyone at Back-to-School Night for sign-up and to answer any questions you may have about the program.

Mrs. Amy

CHARITON COUNTY HEALTH CENTER

The Chariton County Health Center (CCHC) is providing flu vaccine for Northwestern students during the fall of 2022. This is not a vaccine for COVID-19. CCHC will administer the flu vaccination during school hours to students with parent/guardian permission. Anyone can get the flu, but rates of infection are highest among children. The best way to protect your child and your family against the flu is to be vaccinated. Anyone interested in having their child receive this vaccine at school can return the signed permission form which will be sent home at the beginning of the fall semester.

Just a few simple tips to improving your child's health.

1. Sleep well. Routine bedtimes are a key to success.
2. Start the day off with a healthy breakfast. If they don't eat breakfast at home, come join us at school. It's delicious.
3. Help your child feel good about themselves and others. Use encouraging words about school.
4. Help with hygiene. Hygiene habits are learned and take practice.
5. If your child wears glasses, have them wear them daily. If they are broken, let the school nurse know.
6. Physical activity builds brain power and muscles. Limit video games. Find new ways to make exercise fun.

Here's to a happy and healthy school year. If you have any questions, please contact the school nurse.

Kathy Naylor, School Nurse
