

# Summer Science Academy 2020

For Middle and High School Students

Bridgewater State University

The Summer Science Academy offers full-day, one-week science classes for students entering grades 6 - 12 in the fall of 2020. Students will work as scientists and conduct hands-on investigations in their selected class. Students in middle school classes will also participate in extracurricular science activities. All classes focus on the importance of science communication as students lead presentations on the last day of class.

Dates	Classes	Grade Levels
July 6-10	Create and Innovate: Make your Mark at the BSU Makerspace	Entering Grades 6-8
July 6-10	Forensics Institute of Bridgewater	Entering Grades 6-8
July 6-10	Pathways to Medicine	Entering Grades 9-12
