

Superintendent's Summary

Board Meeting Summary for September 9, 2010

Although past practice has been to post the Board minutes following each Board meeting, they are not official until approved by the Board the following month. To allow time for review of the minutes and to also inform the Blackhawk staff and community about the Board level action, a Superintendent's Summary will be created after each Board meeting. Once the minutes are official, the summary will be replaced on the website with official minutes.

- Eight members were present (Mr. Inman, absent)
- Board minutes from August were approved.
