

# Surreal Selfie Boxes

Must have a focus on your features.

You must use at least two filters or effects on each photo.

You can do a set of 6 or 9 photos.

Each photo will be cut out and glued in a box.

The boxes are then glued to a piece of cardboard to keep them together.

## Steps:

Take your selfie photos

Select a size of box and measure it

You will make a rectangular selection that size for the cutout

Open your photo in Photoshop and resize it smaller

Make your selections and apply 2 filters or effects

Copy and paste to a new 8.5 x 11 document in Photoshop

Layout all your photos and print this doc

Cut out the photos and glue them in the boxes

Glue the boxes to a piece of cardboard as a backing
