Remember: This is out of all of our control. Both of us would want to be in the classroom where you are learning face to face with Mrs. Sutcliffe. I am sorry that I cannot give that to you, but I hope these next 3 weeks you know that I am here for you just a computer video conference call away or even a phone call/text away. I was looking through the worksheets I had all ready for this past Friday that I printed off for all of my students, and I just was still on edge that students would struggle at times. I want this to be the best remote math learning experience possible for you, so I have chosen Khan Academy. It was literally almost 50/50 with student preferences that I polled through REMIND, so I had to choose.

LET'S MAKE THE BEST OF IT! HAWKS WAY STYLE!

Be RESPONSIBLE: Complete your assignments EVERY DAY! Ask for help, if needed that day BY EMAIL or come to my ZOOM Meeting that Day or Next. DO NOT WAIT UNTIL THE LAST WEEK!

Be RESPECTFUL: At times, I might have my hands full with 3 little kids running around, so if I don't answer if you call or my kids say Hi or throwing a temper tantrum, please be patient with me. I am going to do the best I can, and I ask you to do the same. But, that doesn't mean that you do not come to the ZOOM meeting or call because you feel like you are bothering me. PLEASE PLEASE PLEASE REACH OUT! I AM HERE FOR YOU!

Have INTEGRITY: Do your OWN work and not with photo apps that tell you the answers, other students doing it for you, etc.

Have COURAGE: Don't quit! I know each and everyone of you can do this and are capable of this! If you are struggling, then come hang out with me on ZOOM. Tues/Thurs 9-10pm or Mon/Wed/Fri 3-4pm. I think it is weird to see myself on video and you probably think the same, but I hope that you will have COURAGE to come and even just say Hi. Try it out!

Here are the directions that are posted on Google Classroom:

1. Please go to Classwork, then look at the Google Calendar for each day's assignments. (Minimum is 75%, Goal: above 80% for each Practice, Quiz, or Test)
2. Go to khanacademy.org, go to the top right and select your username, then learner's dashboard. Your assignments should be on the left of the page.
3. Watch videos and complete practice assignments for these assignments to prepare appropriately.
4. Come to my Zoom link listed on the Google Calendar invite or link on the front for that particular day, if having trouble or just need some social interaction. M/W/F 3-4pm or T/TH 9-10pm. If neither of these times work, then please email me to arrange 1-1 meeting.
