

Advanced Chemistry C105/C106

What grades are eligible to take this class? Grade 11, Grade 12

Which School is this class part of? N/A

Is this class weighted? Yes

Does this class offer early college credit? Yes

Does this class offer an industry-recognized certification? No

Why should I take this course/who is this course for? This class is for students who are strong in Chemistry and Math and are interested in developing a deeper understanding of Chemistry topics. This class is also for students wanting to earn early college credit in Chemistry.

How much homework/reading per night? Between 1 and 3 hours

Is group work required in this class? No

What cool things can I do in this class? In this class, students dive deeper into chemistry topics studied in Honors Chemistry I. Students also learn new topics such as kinetics, thermochemistry, and equilibrium. Students perform several laboratory experiments to strengthen material learned in class and learn college level laboratory skills.
