

Chemistry 2 Honors

What grades are eligible to take this class? Grade 11, Grade 12

Which School is this class part of? School of Health and Natural Sciences

Is this class weighted? Yes

Does this class offer early college credit? Yes

Does this class offer an industry-recognized certification? No

Why should I take this course/who is this course for? This course is meant for students who want to go deeper into chemistry but aren't thinking of going into science or engineering in college. The class is perfect if you want to go into teaching, nursing, vet tech, nutrition, physical therapy, business, manufacturing, law, or other areas where science is required in college but not the focus.

How much homework/reading per night? Between 1 and 3 hours

Is group work required in this class? Yes

What cool things can I do in this class? I try to include a fun project every year. This year we learned about the chemistry of ceramics and got to make our own pottery. We also have done a project with the civil engineering class where students collected and analyzed the water in Deep River and Lake George.
