TECHNOLOGY GRAVEYARD

1. What is a piece of OUTDATED technology that is interesting to you?
2. What does it do?
3. What caused your item to come to an end (why did people stop using it)?
4. What are some items that may have caused your item to run its course (or replaced it)?
5. What are some items that people used before your item was available?
6. When was your item introduced?
7. When did it become obsolete?
8. How much did your item cost?
9. What brand(s) made your item?
10. What is one statistic or fun fact about your item or the company?

GHOST OF TECH FUTURE

Directions: You will create a Google Slides presentation on a new piece of technology. Choose a technology that is not readily available yet. Consider the items in our Technology Graveyard. They were once popular and in demand. Now, antiques at best. Think about how trends in virtual reality, augmented reality, 3D printing, robotics, or artificial intelligence might phase out or replace items we use today.

Slide 1: Name of Item, photo, and presenter name

Slide 2: Explanation of what your item is/does

Slide 3: Technology that inspired your item

Slide 4: Where do you think this item will go?

Slide 5: Closing

Checklist for Grading:

- ☐ Choose/Create a design template
- ☐ Appropriate fonts and sizes (use a font size of 24 points or larger for headings and a font size of 18 points or larger for body text)
- ☐ Quality/consistent/relevant images (images are not blurry or too busy, appear to be of similar styling or design, and add to the value of your slide)
- ☐ Spelling and grammar error-free
- ☐ The purpose of your presentation was clear
- ☐ Includes all required slides
- ☐ Maintain eye contact, appropriate volume, and non-verbal communication: be confident or FAKE IT 'TIL YOU MAKE IT!
- ☐ Have a clear closing (end) to your presentation

Notes from Teacher:

Presentation Title: _____
