

Mrs. Bergquist's 2nd Grade Class News

Week of:
Nov. 14th —Nov. 18th

What's Happening This Week?

While reading *Tell Me, Tree* we will focus on classifying and categorizing, using headings to find information and ellipsis (...). We will work on making predictions, asking questions about what we are reading, clarifying information and summarizing. We will discuss singular and plural nouns in language. In math, we will have a test over unit 3 on Monday and begin unit 4. We will be adding two digit numbers, counting on tens to add, regrouping ones as tens and deciding when to regroup.

- I would like to thank all the parents for all you do for our class. We collected a lot of pennies (even though we didn't win the contest), we had fun with our candy science experiments and we are looking forward to our upcoming Thanksgiving feast!

SCHEDULE

Monday—music

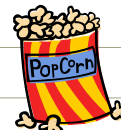

Tuesday—library and computer

Wednesday—computer

Thursday—gym (don't forget your tennis shoes)

Friday—

Snack...

We will enjoy snack time in the afternoons. Please send a healthy snack for your child to enjoy.
