-You will be prompted to make your own copy of the resource, which you can then send out to your students.

-Make an extra copy of the resource and rename it every time you want to assign it to your students. That way, you always have a blank template in your files (just in case a student accidentally edits your master copy). To do this, click on the "file" drop down box and select "make a copy".

-It is extremely important that students make their own copy of the resource so they are not editing your copy. To do this, they must click on the "file" drop down box and select "make a copy".
