

THIRD GRADE MATH WORDS

Definitions can be found in the Glossary of your math book.

acute	divisor
angle	dollar
triangle	edges
addends	volume
area	eighth
array	elapsed
associative	time
bar	equally
graph	equation
benchmark	equilateral
capacity	equivalent
centimeter	estimate
certain	expanded
event	factors
commutative	fifth
compare	reflection
compatible	fourth
congruent	fraction
coordinate	gallon
corner	halves
cube	hexagon
cubic	hundredth
unit	identity
cylinder	impossible
data	inequality
decimal	intersecting
decimeter	kilogram
Celsius	kilometer
Fahrenheit	likely
degree	event
denominator	symmetry
difference	segment
digits	liter
distributive	milliliter
dividend	millimeter
divisible	minute
division	multiple

**multiplication
numerator
numerical
expression
unlikely
vertices
obtuse
octagon
ordered
pair
ordinal
ounce
outcome
parallel
parallelogram
pentagon
perimeter
period
perpendicular
pictograph
place
value
polygon
possible
probability
product
pyramid
quadrilateral
quarter
quotient
rectangle
rectrangular
prism
remainder
rhombus
scalene
simplest
form
translation
sphere**

**standard
survey
thermometer
trapezoid
rotation
twelfth**
