

THE 7^{SECOND} CHALLENGE

DRAWING EDITION

YOU HAVE JUST

7

SECONDS TO DRAW...

2.0

Why are we doing the 7 second challenge?

This is an exercise that supports rapid creative thought. It is not a test (or indication) of your drawing skill. Each prompt will asks you to consider a visual idea with only seven seconds, so your images must explain the idea as thoroughly as possible with very little time to do so.

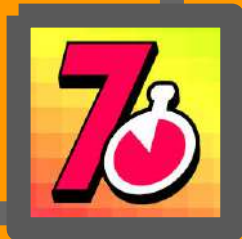

In many ways, this challenge replicates the brainstorming process and is a great way to develop simple thumbnail drawing skills for larger projects.

The next slide will review some basic rules.

7 second challenge Rules:

- 1. Do your best. Visualize quickly, if you aren't sure what the prompt is asking make something up!**
- 2. I will provide random 'power ups' (more time) when particularly difficult prompts pop up.**
- 3. Read quickly! I will read the prompt out loud and then your time will start.**
- 4. Good luck! All blanks will be a half point deduction, so make sure you draw something!**
