

The Amazing Map Race

As one of the producers of this TV show you are responsible for designing next year's race. What's your specific job? Select 10 sites from around the world that the contestants will race to on each leg of the journey. In each city you must have a site that will be the final meeting place for each team. Come up with a theme for your race. Ex. Bridges, or statues of statesmen, or sport venues, etc.

1. You must use all 7 continents at least once.
2. Choose the sites you will have your teams meet at. Get the exact lat. & long. for the site as well as the continent, country and city. Think about museums, statues, buildings, parks, natural landmarks, rivers, bridges, churches, geological formations, theaters, etc. as meeting spots.
3. Fill out the chart below with the required information.
4. How will the teams get from place to place? Fly, walk, ride a bike, take a train, sled dogs????? The method of transportation must be possible between the area you are coming from and the one you are going to!
5. Locate and record the sites on your map sheet. Number them and then connect them in the order you plan for the contestants to go.
6. Picture Sheet: Cut and paste to a Google doc a picture of the site you selected for meeting. Google Earth has photos on it!! Label the lat & long, site, city, and country under each picture. Please label it (your last name, Amazing).

How to get there	Continent	Country	City	Meeting site	Lat	Long.
