

Good Morning. Today you are going to look at 9/11 and geography. I want you to think and learn today. You are going to create a slideshow about front pages of newspaper the days after 9/11. You must create at least five slides. Here is what you are to do.

1. First slide, into with background on 9/11 with a picture.
2. Next 4 slides have the front page of a newspaper in the days following 9/11. Each slide the page comes from a different region of the country and the world. 1 must be NY metro area, and one must be outside the US. You are to show the picture and find examples of how this front page differs because of its distance from NYC. Will look at these Monday and discuss the events of 15 years ago.

# Intro Slide

Picture

# 1st Front Page

Insert Pic of Cover

Describe how it shows the distance from the events of 9/11.
