Using pop culture to learn about office and business careers...

The Office Career Activity

“THE OFFICE” CAREER ACTIVITY

Teacher:

Pass out 11 X 18 craft paper (or whatever size is available)

Images of the Characters:

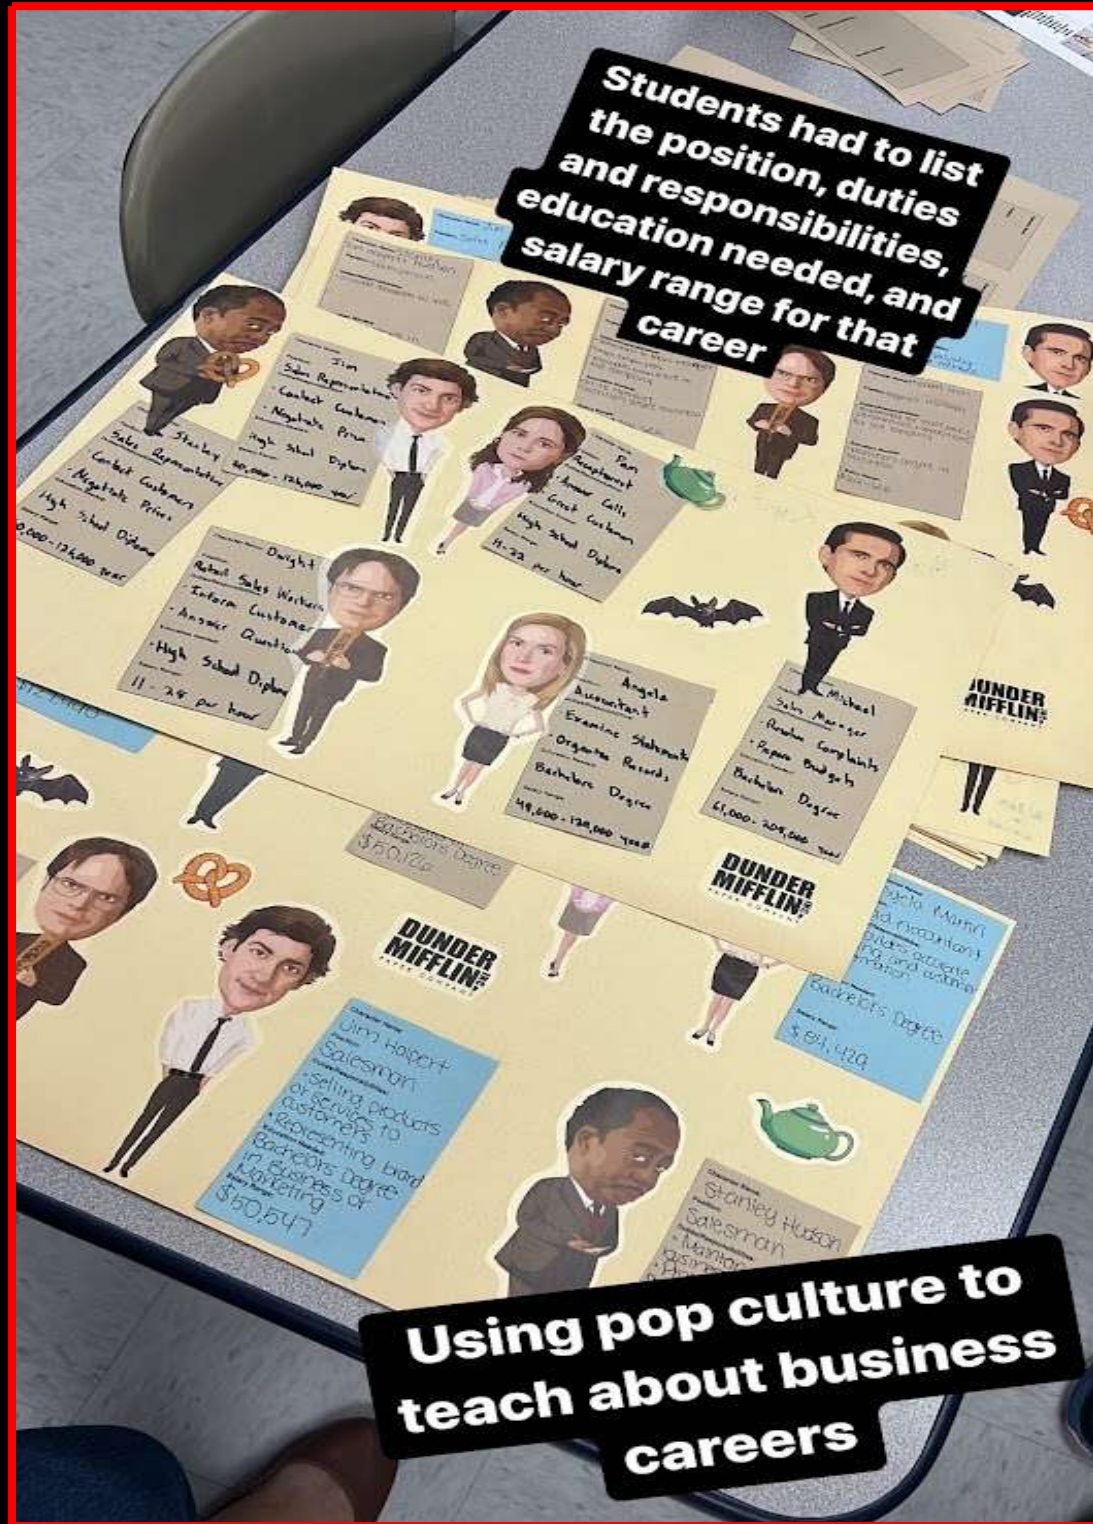

I found “The Office” character stickers from the Dollar General Store...but you can have students search Google Images to find the characters OR use the images from page 3 and 4 of this file.

Students will also need glue sticks or tape and a writing utensil.

Print out several copies of page 5 of this file as students will need one character career profile for each character.

Students can use the Occupational Outlook Handbook to find the information about each career OR they can conduct a simple web search.

My students worked in pairs on this activity.
