

## The Shape of Things 1st & 2nd Grade

Hi guys! Let's see how good you are creating with shapes.  
We are going to create a Shape Person using any shape you want.

**Objective:** You will create a Shape Person and tell me something about your person. My character had a question....and I put in the talking bubble (So, when can I see my teacher again). You can do something like that as well. Remember to be original.

**Materials:** Paper, pencil, any coloring tools of choice

Here is my character..

You will see more samples in the video.
