PLAYER OF THE WEEK:

Kendalyn Ellington

"My favorite part is really just the game itself. I also love the sportsmanship all of our players. I

see myself helping the basketball team by making sure all of the players are confident and letting them know that they are doing great no matter the amount of mistakes they make. Good teammates have great sportsmanship and don't bring negativity onto the court."

Highschool Boys Basketball

"I am looking to see my guys go out and compete with lots of energy from start to finish. I want my team to go out there and run our offensive and defensive sets correctly and force turnovers on the defensive end. With this being week one, I don't have a stand out player yet, but hopefully my starting 5 play fundamentally sound ball and set the tone for the rest of the team all game.
