## Jasmine Williamson

"What makes me want to succeed in school is that my parents didn't grow up with the opportunities that I am given everyday at school, so I want to make them proud and also make it to college to become a mechanical technician for Peterbilt. My hobbies are mainly playing at home with my siblings, watching movies with my boyfriend, and occasionally going to Sonic with my oldest sister Anna. Sports that I'm involved in are cross country, basketball, and track. I'm in the 8th grade. "
