

TIMELINE. CHEMISTRY

YEAR	Situation	Important person
300 B.C.	fire, water, air, soil	Aristotels
1382	The philosophal stone. Transmutation	Nicolas Flamel
1536	Here we have some metals	Parascelsus
1669	Stinky basement. The Phosphorus	Henning Brand
Our era		
1600	Gas attack, trying to make some air. "Chaos = Gas"	Jan Helmont
1661	Don't call me "Al" Chemicals remove "Al" form the word Alchemy.	Robert Boyle
1702	FLOGIST.	George Stahl
1774	Deflogisted air. The oxygen	Joseph Prestley
1779	Father of Chemistry. Mass conservation law	Antonio Lavoisier
1803	The atom	John Dalton
1828	First Chemistry language	Jakob Berzelius
1869	Periodic table	Dimitri Mendeleive
1895	X- Rays	W. Roentgen
1896	Uranium	Henri Becquerel
1897	The electron	Joseph Tompson
1898	Po & Ra	Pierre and Marie Curie
1932	The neutron	James Chadwik
1945	First atomic Bomb
