

Toilet Paper Photography Activity

...

How can you take a creative
photo of toilet paper?

You will take 2 super interesting photos of toilet paper

You can use 1 or more rolls of toilet paper for the photos.

Think about your LIGHTING, SHADOWS, BACKGROUND, PLACEMENT, CROPPING, and ARRANGEMENT.

Be creative! Set up some cool photos!

You can have other things in the photos as long as they HELP and NOT HURT the image.

Edit them any way you like. You can even photoshop images together.
I suggest Photopea.com, Lightroom Mobile, Snapseed, VSCO, or the native camera app on your phone.

Here are photos of another simple white object to inspire you...
