

Tin Foil Tower Challenge

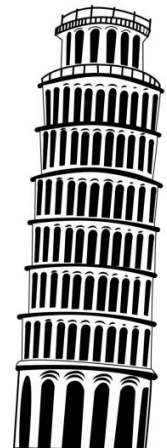

1. You must only use one box of tin foil for this challenge. No additional materials are permitted.
2. Your goal is to build the tallest possible tower using a box of tin foil.
3. The tower must be free-standing and constructed on a flat surface.
4. There are many different ways to complete this challenge. Be creative!
5. Collaborate* with your team-mates. Listen to everyone's ideas before deciding on a final design idea.

*Collaboration requires respect for everyone in the group. Everyone's opinion matters. Everyone's thoughts and ideas are important.
