Star-Spangled Banner

U1 C1 L3

"Star-Spangled Banner" Lyrics by Francis Scott Key, 1814

*Oh, say can you see by the dawn's early light
What so proudly we hailed at the twilight's last gleaming?
Whose broad stripes and bright stars thru the perilous fight,
O'er the ramparts we watched were so gallantly streaming?
And the rockets' red glare, the bombs bursting in air,
Gave proof through the night that our flag was still there.
Oh, say does that star-spangled banner yet wave
O'er the land of the free and the home of the brave?*

*On the shore, dimly seen through the mists of the deep,
Where the foe's haughty host in dread silence reposes,
What is that which the breeze, o'er the towering steep,
As it fitfully blows, half conceals, half discloses?
Now it catches the gleam of the morning's first beam,
In full glory reflected now shines in the stream:
'Tis the star-spangled banner! Oh long may it wave
O'er the land of the free and the home of the brave.*

*And where is that band who so vauntingly swore
That the havoc of war and the battle's confusion,
A home and a country should leave us no more!
Their blood has washed out their foul footsteps' pollution.
No refuge could save the hireling and slave'
From the terror of flight and the gloom of the grave:
And the star-spangled banner in triumph doth wave
O'er the land of the free and the home of the brave.*

*Oh! thus be it ever, when freemen shall stand
Between their loved home and the war's desolation!
Blest with victory and peace, may the heav'n rescued land
Praise the Power that hath made and preserved us a nation.
Then conquer we must, when our cause it is just,
And this be our motto: "In God is our trust."
And the star-spangled banner in triumph shall wave
O'er the land of the free and the home of the brave.*

Pledge of Allegiance

*"I pledge allegiance to the flag of the United States of America and to the Republic
for which it stands, one Nation under God, indivisible, with liberty and justice for all."*

How to Fold the Flag

U1 C1 L3

The traditional method of folding the flag is a carefully performed procedure:

STEP 1—Straighten out the flag to full length and fold lengthwise once.

STEP 2—Fold it lengthwise a second time to meet the open edge, making sure that the union of stars on the blue field remains outward in full view. (A large flag may have to be folded lengthwise a third time.)

STEP 3—Make a triangular fold by bringing the striped corner of the folded edge to the open edge.

STEP 4—The outer point is then turned inward, parallel with the open edge, to form a second triangle.

STEP 5—Triangular folding is continued until the entire length of the flag is folded in this manner.

STEP 6—When the flag is completely folded, only a triangular blue field of stars should be visible.

Display of the Flag

U1 C1 L3

RULES FOR DISPLAYING THE U.S. FLAG

When displaying the flag, you should always raise it briskly and lower it ceremoniously.

It is customary to display the flag from sunrise to sunset, but you can display all-weather flags at all times if properly lit at night. The use of the flag at night, as well as during the day, should follow rules of custom.

Presidential proclamations contain the rules for displaying the flag at half-staff—for example, on Memorial Day, display the flag at half-staff until noon, and then raise it to the top of the staff. State and federal governments also fly the flag at half-staff when there is death of a president, former president, principal official, or foreign dignitary.

When flying the flag at half-staff, raise it to its peak and then lower it to the half-staff position. When lowering the flag for the day after it has been flown at half-staff, raise it to its peak and then lower it ceremoniously.

DISPLAY OF THE U.S. FLAG ALONE	
	When displaying the U.S. flag from a staff projecting from a windowsill, balcony, or front of a building, the union of the flag should be at the staff's peak (unless displaying the flag at half-staff).
	When displaying the flag flat against a wall, either horizontally or vertically, the union should be uppermost and to the flag's own right, or the observer's left.
	When displaying the flag in a window, place it with the union to the left of the observer in the street. When displayed suspended across a street, the flag should be vertical, with the union to the north on an east-west street, or to the east on a north-south street.

DISPLAY OF THE U.S. FLAG ALONE (cont'd)

When suspending the flag at the edge of a sidewalk on the side of a building, raise the flag out from the building towards the pole, union first.

When using the flag over a casket, place it so the union is at the head and over the left shoulder.

NOTE: Never lower the flag into the grave, nor allow it to touch the ground.

GROUP DISPLAY

When displaying the flags of two or more nations or states, fly them from separate flag staffs (or flagpoles) of the same height. The flags should be of similar size.

When grouping a number of flags and displaying them from staffs radiating from a central point, center the U.S. flag or place it at the highest point of the group.

When carried in a procession with other flags, carry the U.S. flag either on the far right of the row of marching persons or, if in a line of flags, carry it in the front and center position of that line.

GROUP DISPLAY (cont'd)	
	When flying a pennant or another flag on the same halyard with the U.S. flag, always fly the U.S. flag at the peak of the staff. The only exceptions to this rule are displaying the United Nations flag at the United Nations Headquarters or the church pennant during services at sea.
	When displaying the U.S. flag with another flag from a crossed staff, place the U.S. flag on its right with its staff in front of the staff of the other flag.
	When displaying the U.S. flag from a staff in an auditorium, meeting hall, or chapel, whether on the same floor level or on a platform, it should be in the position of honor at the speaker's or chaplain's right facing the audience or congregation. Place other flags on the left of the speaker or chaplain; that is, to the right of the audience.

COLOR GUARD

Color guard is a drill used in all branches of the military to show respect for the American flag. In JROTC, the four-person color guard is the standard organization performed in competitions. Two Cadets carry flags, the U.S. flag and usually a state flag. Two other Cadets carry rifles or sabers. The flag bearers are in the center of the four Cadets. This symbolizes that our flag and our nation will always be protected.

The JROTC color guard is an important function in all units. It is an honor to be selected for the color guard. Color guard Cadets must meet the highest standards of appearance and training.

Cadet Challenge Exercise Descriptions

U1 C5 L2

1) CURL-UPS

Conduct curl-ups on a flat, clean surface, preferably with a mat. Start in a lying position on your back with your knees bent so your feet are flat on the floor about 12 inches from your buttocks. You should have your arms crossed with your hands placed on opposite shoulders, and your elbows held close to the chest throughout the exercise. Have a partner hold your feet at the instep. At the command, “ready, go,” raise the trunk of your body, curling up to touch the elbows to the thighs, and then lower your back so your shoulder blades touch the floor/mat. This constitutes one repetition of a curl-up. During each repetition, bouncing off the floor/mat is not allowed and the fingers must touch the shoulders at all times. Complete as many curl-ups as possible in 60 seconds.

Alternative: Partial Curl-ups: Partial curl-ups can be used as an alternative to curl-ups. Lie on a cushioned, clean surface with knees flexed and feet about 12 inches from buttocks. Do not hold or anchor the feet. Arms are extended forward with fingers resting on the legs and pointing toward the knees. Your partner should be behind your head with hands cupped under your head. Curl up slowly, sliding the fingers up the legs until the fingertips touch the knees, then curl back down until the head touches your partner’s hands. The curl-ups are done to a metronome (or audio tape, clapping, drums) with one complete curl-up every three seconds. Continue until you can do no more in rhythm (have not done the last three in rhythm) or have reached the target number for the test.

2) SHUTTLE RUN

The shuttle run is conducted on an area that has two parallel lines 30 feet apart. The width of a regulation volleyball court can serve as a suitable area. Start from the standing position. At the command “ready, go,” run to the opposite line, pick up one block, run back to the starting line, and place the block behind the line. Run back, and pick up the second block, and carry it across the line. Two runs are allowed for this event, with the better of the runs recorded. Scores are recorded to the nearest tenth of a second.

3) V-SIT REACH

The V-sit reach is conducted on a flat, clean floor. Use a yardstick and adhesive tape to make a baseline that is two feet long. Make a measuring line perpendicular to the midpoint of the baseline extending two feet out from either side of the baseline. Place one-inch and half-inch marks along the measuring line with “0” where the baseline and measuring line intersect. Remove your shoes and sit on the floor with the soles of your feet placed immediately behind the baseline. The measuring line should be between your heels, which are 8 to 12 inches apart. Clasp your thumbs so that your hands are together, palms down,

and place them on the floor between your legs. While your legs are held flat on the floor by a partner (or partners), perform the exercise while keeping the soles of your feet perpendicular to the floor (feet flexed). Slowly reach forward along the measuring line as far as possible, keeping the fingers in contact with the floor. You receive three practice tries for the V-sit reach. On the fourth extension, hold your farthest reach for three seconds. Scores are recorded where fingertips touch the floor to the nearest half-inch. Scores beyond the baseline are recorded as plus scores, whereas those behind the baseline are recorded as minus scores.

Alternative: Sit and Reach: The sit and reach exercise is done in a specially constructed box with a measuring scale marked in centimeters, with 23 centimeters at the level of the feet. Remove your shoes and sit on the floor with knees fully extended, feet shoulder-width apart, and soles of the feet held flat against the end of the box. With hands on top of each other, palms down, and legs held flat, reach along the measuring line as far as possible. After three practice reaches, the fourth reach is held while the distance is recorded. Participants are most flexible after a warm-up run. Best results may occur immediately after performing the endurance run. Legs must remain straight, soles of feet against the box and fingertips of both hands should reach evenly along measuring line. Scores are recorded to the nearest centimeter.

4) ONE-MILE RUN/WALK

This event is conducted on a flat area that has a known measured distance of one mile with a designated start and finish line. You will be given a lightweight numbered device to carry or wear in any manner that will not slow you down while running.

5) PULL-UPS

Pull-ups are conducted using a horizontal bar approximately 1.5 inches in diameter. A doorway bar or a piece of pipe can serve the purpose. The bar should be high enough so you can hang with your arms fully extended and your feet free of the floor/ground. Assume the hanging position on the bar using either an overhand grasp (palms facing away from body) or underhand grip (palms facing toward body). Begin the exercise by first raising your body until your chin is over the bar without touching it. To complete one repetition, the body must be lowered to the full-hang starting position. During each repetition, the body must not swing, legs must not kick or bend, and the pull must not be jerky. Scoring is done on the number of pull-ups you can correctly execute. There is no time limit on this event.

Alternative: Right Angle Push-ups: Lie face down on the mat in push-up position with hands under shoulders, fingers straight, and legs straight. Your legs should be parallel and slightly apart, with the toes supporting the feet. Straighten the arms, keeping the back and knees straight, then lower the body until there is a 90-degree angle at the elbows, with the upper arms parallel to the floor. A partner holds their hand at the point of the 90-degree angle so that you go down only until your shoulder touches the partner's hand, then back up. The push-ups are done to a metronome (or audio

tape, clapping, drums) with one complete push-up every three seconds, and are continued until you can do no more in rhythm, have not done the last three in rhythm, or you have reached the target number for the 85th percentile Health Fitness Award.

Alternative: Flexed-arm Hang: The flexed-arm hang should be used when a Cadet cannot execute one pull-up. Using a horizontal bar as in the pull-ups, climb a ladder until your chin is above the bar. Begin the exercise by grasping the bar with your hands, shoulder width apart, using either an overhand grasp (palms facing away from body) or underhand grip (palms facing toward body). At the command “ready, go,” step off the ladder.

Simultaneously, an assistant instructor will remove the ladder and prevent any forward swinging of the legs. The Cadet's chin should be level above the bar. Kicking and other body movements are not permitted while you are on the bar. The stopwatch starts on the command “go” and stops when your chin rests on the bar, the chin tilts backward to keep it above the bar, or the chin falls below the level of the bar. Scores are recorded to the nearest second.

Exercise #1 – How to Fold the Flag

The traditional method of folding the flag is a carefully performed procedure:

STEP 1 – Straighten out the flag to full length and fold lengthwise once.

STEP 2 – Fold it lengthwise a second time to meet the open edge, making sure that the union of the stars remains outward in full view. (A large flag may have to be folded lengthwise a third time.)

STEP 3 – Make a triangular fold by bringing the striped corner of the folded edge to the open edge.

STEP 4 – The outer point is then turned inward, parallel with the open edge, to form a second triangle.

STEP 5 – Triangular folding is continued until the entire length of the flag is folded in this manner.

STEP 6 – When the flag is completely folded, only a triangular blue field of stars should be visible.

Why this lesson is important:

Many instructors approach their learners with a variety of strategies to process information. Think about classroom situations you've been in. What strategies were used by the instructor to help students "get it?" Brainstorming, mind-mapping, concept webs, and graphic organizers are tools that are often used in the classroom to encourage learning. In this lesson, you will be introduced to Thinking Maps® – visual tools for thinking processes. Throughout the lesson, you will use the eight Thinking Maps® to enhance your own learning.

Chapter 2: Personal Growth and Behaviors

Thinking Maps® [U1C2L1]

This performance assessment task gives you an opportunity to document your achievement of the lesson's competency:

Use Thinking Maps® to enhance learning

Directions

For this performance assessment task, you will create a variety of Thinking Maps® and a written summary of how these maps improved learning. For this assessment you will:

1. Select a text chapter or course subject where you need to remember information and new ideas or must read quite a bit of content. Select a course that is difficult for you or is taught in a way that conflicts with your own learning style.
2. Try to create all eight Thinking Maps® to help you understand the content or skills necessary for your course. You may create as many Thinking Maps® as possible for the content. Consider them to be a study guide.
3. Write a short summary about how Thinking Maps® helped improve learning. Show how you were successful.
4. Put the Thinking Maps® and written summary into a folder and submit to your instructor.
5. Use the attached scoring guide criteria for what you need to do to complete this task.
6. Submit your completed performance assessment task and scoring guide to your instructor for evaluation and a grade.

Chapter 2: Personal Growth and Behaviors Self-Awareness [U1C2L2]

What you will accomplish in this lesson:

Determine your behavioral preferences

Why this lesson is important:

You may notice that some people behave or conduct themselves like you, while others behave quite differently. For example, one person may be very quiet and thoughtful while another may be the life of the party. In this lesson, you will identify your own behavior preferences and consider the preferences of others. This knowledge can help you to understand situations as they unfold, improve your communication with others, and influence people and situations to get the results you desire.

Essential Question:

How did Winning Colors® help you identify your behavioral preferences?

What you will learn in this lesson (Learning Objectives):

- Explain the four clusters of behavior in the Winning Colors® framework
- Illustrate your behavioral preferences using the four Winning Colors®
- Identify strengths for each behavior cluster
- Express appreciation for your own uniqueness
- Define key words: assessment, associate, cluster, differentiate, introspection

You will have successfully met this lesson's purpose:

- by completing a Self-Awareness Matrix using the Winning Colors® behavior model
- by writing a reflection about applying Winning Colors® to a situation
- when you apply your Winning Colors® to a variety of situations
- when you rank the behaviors that you are most likely to exhibit in each situation
- when you provide specific examples of how you would or would like to demonstrate each color in each situation
- when your written reflection summarizes how preferred behaviors help or hinder a given situation
- when your written reflection identifies strategies for dealing with a situation more effectively by applying the knowledge of Winning Colors®

Exercise #1 – Behavior Strengths for Communicating

Directions: In this exercise, you will determine which of your Winning Colors® are the strongest at the present time: planner, builder, relater, or adventurer. The four parts of self and your POWER to communicate reside in your ability to exhibit different behaviors in situations. Although everyone is comprised of each of the behaviors in diverse extents, the goal of Winning Colors® is to work to develop a balance between the four colors.

1. Start by numbering the following words or phrases in each item (a, b, c, d) from 1 to 4, moving horizontally across each row in order of importance to you. Number 1 would be the word or phrase that best describes your feelings of comfort and what you are like inside—NOT how you would like to be—NOT how you act because of outside forces.
2. Total the vertical columns.
3. Circle the lowest score. Put a box around your second lowest score. **Note:** The lowest score identifies your present communication POWER or Winning Color®. Your boxed score is your backup communication POWER.
4. Read the next page of this exercise and then fill in the TREND blanks with the four parts of self that match the words in the column.
5. Next fill in the COLOR blanks with the color that matches the TREND based on the next page.

Note: Make sure the phrases are numbered and the columns are totaled before going any further.

Directions: In your table on the previous page, fill in the appropriate TREND word and corresponding COLOR found below.

1. Under column A the TREND is **Builder**, and the COLOR is **Brown**, representing leadership and decisiveness.
2. Under column B the TREND is **Relater**, and the COLOR is **Blue**, showing openness and feeling.
3. Under column C the TREND is **Planner**, and the COLOR is **Green**, containing deep, hidden, changing currents.
4. Under column D the TREND is **Adventurer**, and the COLOR is **Red**, producing excitement, action, and fun.

According to the creators of Winning Colors®, the colors symbolize the four elements of life: Earth, Air, Water, and Fire.

Exercise #2 – Self-Awareness Matrix

Directions: In this exercise, you will determine which of your Winning Colors® are the strongest in different situations: planner, builder, relater, or adventurer.

1. Consider each situation on the left and decide which cluster(s) would dominate your behavior in each. Rank the colors you would exhibit in order from 1 (most likely) to 4 (least likely).
2. Record a brief example of something you would do or a way you might behave or feel that illustrates the behavior appropriately. This may not be a behavior you currently exemplify, but one that you can strive toward.

Remember, though you will have a natural tendency toward one color or behavior, the goal of Winning Colors® is to strive for balance.

Exercise #1 – Energizer

Directions: Read the passage below and prepare to explain what it is about. Highlight or circle key or cue words and underline words you are unfamiliar with.

Tony got up slowly (from the mat), planning his escape. He hesitated a moment and thought. Things were not going well. What bothered him most was being held, especially since the charge against him had been weak. He considered his present situation. The lock that held him was strong, but he thought he could break it. He knew, however, that his timing would have to be perfect. Tony was aware that it was because of his early roughness that he was being penalized so severely – much too severely from his point of view. The situation was becoming frustrating; the pressure had been grinding on him for too long. He was being ridden unmercifully. Tony was getting angry now. He felt he was ready to make his move. He knew that his success or failure would depend on what he did in the next few minutes.

As you use the strategy, complete the table at the end of this practice to write down the steps you took, a summary of each step, and a reflection on the strategy for your reading comprehension.

THE MAKING OF THE CONSTITUTION

Classifying Governments

There are several ways to classify governments. The most used system derives from the Greek philosopher Aristotle. In this system, governments belong to one of three groups: autocracy, oligarchy, or democracy.

Autocracy is a system of government in which the power and authority to rule are in the hands of a single individual. Throughout history, the most frequently occurring form of autocracy is a monarchy. Monarchs usually acquire their realms by inheritance and their subjects customarily address them by the title of king or queen. Although some nations still use this system of government today, many of these heads of state have lost all or a part of their power to rule. In the following picture, Queen Elizabeth I (1533 – 1603) was one of the strongest rulers in English history. Her rule ended just prior to the American experience, which began in 1607 when England founded its first permanent colony at Jamestown, Virginia. Another form of autocracy is dictatorship. Dictators gain power through their skills and abilities rather than inheritance.

Oligarchy is a system of government in which a small elite group holds power. The source of power is usually wealth, control of the military, social position, or some combination of these. The former Soviet Union was a recent example of an oligarchy. A small group of leaders still rules China. The most prevalent form of oligarchy is aristocracy. Aristocrats also inherit their positions. They hold governmental and economic power and claim superiority over the “common people.”

Democracy is a system of government in which the people rule. It may take one of two forms, direct democracy or representative (indirect) democracy. Direct democracy is possible only in a relatively small society where citizens can meet together regularly to decide key issues and solve problems. Representative democracy allows for the election of officials who represent the people in carrying out the duties and responsibilities of the government. Virtually all democracies with large populations are representative democracies, with the United States and Great Britain as two of the oldest.

During the 1600s, people from many countries came to the “New World” to establish their home, obtain political and religious freedom, and make their fortune. As the English populated the thirteen colonies along the east coast, they established their own independent governments—each fashioned after the ideas, political experiences, and beliefs they brought with them. These same factors governed England for centuries.

The English Contribution

As political systems matured, governments incorporated new ideas. Notable philosophers came on the scene to spur the people in their pursuit for freedom from the one-man rule—the main political system for centuries.

In 1651, Thomas Hobbes suggested in his book, *Leviathan*, the idea of a social contract between individuals. His writing stressed that before governments, men lived in a “state of nature” where they had complete freedom to do as they pleased, provided they were powerful and resourceful enough to

do so. His social contract theory presented a bleak picture of human life as “nasty, brutish, and short.” He argued that government must be strong, and even repressive, to keep people from lapsing into a savage existence. Although denounced in his day, this book had a continuing influence on western political thought.

James Harrington was a political theorist who published the book *Oceana* in 1656. He argued that there were only two types of governments: either a government of men, not of laws, or one of laws and not of men. If men controlled the government, the result was tyranny because powerful individuals would rule without restriction. However, in a government controlled by laws, government officials would be subject to all of society’s rules and they could not tyrannize their fellow human beings.

John Locke, another English philosopher, published *Two Treatises of Civil Government* in 1690. Contradicting Hobbes, Locke maintained that the original state of nature was happy and characterized by reason and tolerance. He argued that all human beings were born free and equal to pursue “life, health, liberty, and possessions.” It was the responsibility of the state, formed by the social contract and guided by natural law, to guarantee those rights. If governments failed to protect those “natural rights,” then people could change the government. His writings and ideas were a major influence on political thought during that period. Although the King did not agree with his ideas, the newly emerging American colonies readily accepted them. Additionally, the policy Locke set down on checks and balances later became a part of the U.S. *Constitution*.

The French Contribution

The spirit of freedom was not just confined to England. Other countries emerged from centuries of serfdom (a system of hereditary submission of slaves or serfs who lived and worked on the land of their lords) to place their stamp on the growing movement for freedom.

Baron de Montesquieu, a French political philosopher, published *The Spirit of the Laws* in 1748 (only 28 years prior to the *Declaration of Independence*). His ideas involved the separation of powers among three separate branches of government. Under his plan, the legislative branch (parliament) would pass the laws, the executive branch (the king) would enforce them, and the judicial branch would settle disputes that arose as the government enforced them. Although previous theorists suggested separating the legislative branch from the executive branch, Montesquieu was the first to suggest an independent judiciary. His ideas were an effort to prevent the concentration of power in the hands of a few.

Jean Jacques Rousseau, who was born in Switzerland but considered to be a French political philosopher, took his cue from Locke. Rousseau wrote *The Social Contract* in 1762, which contributed to the thought and debate of the times with his views on freedom of the individual and the shape of government. He believed that all human beings in a state of nature were born free. Therefore, he proposed that the main duty of government, preferably a direct democracy, was to compromise the freedom of nature with the necessary order of a civilized, stable society.

America created an environment where democratic reforms and political theories could emerge. Although there were Spanish and French settlements in North America, the people who lived in the original 13 colonies that later became the United States were English. Thus, it was English practices, as well as English and French ideas about government that found their way into the “New World”—a world that was ideally suited to nurture and develop those practices and ideas. Consequently, the American leaders who wrote the *Declaration of Independence* and the *Constitution* knew well the political ideas of these five individuals.

One day your teacher remarks that the project poster for your team is excellent. You know your lazy team member is the one who created the poster. What do you say to your teacher?
2. You have many friends who download music without paying for it. One day, a friend tells you how he just downloaded a new song you really like and asks if you'd like a copy. How do you respond?

Chapter 2: Personal Growth and Behaviors Personal Growth Plan [U1C2L8]

What you will accomplish in this lesson:

Develop a plan for personal growth

Why this lesson is important:

Do you want to make more money, have better relationships, be the life of the party, start a new career, or just lose a few pounds? What do you need to do to accomplish your objective? You've probably heard words to this effect: "If you don't know where you're going, any road can lead you there." Likewise, if you don't know where you are, how do you know which road to choose?

Most of the success-oriented products being marketed today focus on the goal and tell you how to get there. These programs assume that if you "do as they do" you will be successful, too. The problem with this approach is that they don't know you. They don't know where you are today, so how can they give you directions to where you want to go? In this lesson, you will determine what personal skills you need to develop to be successful in reaching your goals.

Essential Question:

Why is emotional intelligence important to personal growth?

What you will learn in this lesson (Learning Objectives):

- Distinguish between the 14 critical emotional skills
- Relate the critical emotional skills to the five emotional skill dimensions
- Develop strategies for growth in emotional skill areas
- Define key words: adaptability, assertion, change orientation, deference, emotional intelligence, intrapersonal, persistence

You will have successfully met this lesson's purpose:

- by creating a written Personal Growth Plan
- when your plan charts your Key Emotional Skills by Skill Dimension according to the levels provided
- when your plan details the skills that you are targeting for improvement
- when your plan lists the resources and activities you will use to help your skill development
- when your plan summarizes how you will record your progress
- when your plan describes how and when you will assess your improvement at the end of the time period
- when your Cadet Portfolio includes your Success Profiler® Assessment for Year 1

ADMINISTRATION INSTRUCTIONS

General Instructions

When filling out the **Personal Skills Map**, there are a few key points to keep in mind . . .

1. The **Personal Skills Map** is part of a positive development approach to assessing and learning essential skills for success.
2. To be of value, personal skills must be understood and practiced. As you fill out the **Personal Skills Map**, claim only those skills you use and practice in actual career/life situations.
3. As you read the descriptions, select those which accurately describe what you regularly do—not those that you could or should do. Be honest; tell the truth.

Specific Instructions

1. Use a pencil or ball point pen.
2. Read each item and circle the answer that best applies to you in ONE given area of your life, such as work or school. In part one, answer all items. In each situation treat each response independently of the other two.
3. "M" stands for most of the time, "S" stands for some of the time, and "L" stands for least of the time.
4. Circle the letter and the number for each item. Transfer the number only to the box at the end of the item.

SCORING INSTRUCTIONS

1. After completing the entire **Personal Skills Map**, add the score values in each column and record the total at the end of each of the four parts of **The Personal Skills Map**. Part One will have 3 scores. Part Two will have 3 scores. Part Three will have 5 scores. Part Four will have 3 scores.
2. Transfer the total scores for each skill area to the appropriate place on the profile at the end of **The Personal Skills Map** by placing a large DOT where your score would appear. Use the 'scale scores' and not the standard scores.
3. Assertion will be the first score used. Place this score in the Assertion scale (which is the second from the top). Do this for all of the other scores.
4. Start on the left side of the profile, draw a line from the margin to the dot for each scale and make a bar graph.

UNDERSTANDING YOUR RESULTS

(Personal Skills Map-Long Version and Personal Skills Map-Short Version)

PROFILING YOUR RESULTS

By darkening in the corresponding raw score totals on each of the fourteen scales shown on the profile sheet, your obtained raw scores are automatically converted to standard scores for interpretation by their position on the profile sheet. You can now see how your scores compare to a general sample in the U.S.

The results that you have plotted on the fourteen scales of the **Personal Skills Map** are your personalized map or guide for you to consider in further developing your personal and career effectiveness. Your personal skills are changeable, and you are capable of life-long learning and positive growth. As you change, develop, and learn new skills, your **Personal Skills Map** profile will be strengthened. Your **Personal Skills Map** scores cannot be accurately thought of as fixed personal “traits” or “factors.” Think of your results as self-descriptions of your current level of personal skills, and focus on your skill strengths. Then consider the skill areas that you want to change and are willing to more fully develop.

The fourteen scales on the **Personal Skills Map** can be related to five major dimensions important in personal and career effectiveness. The first eleven scales of the **Personal Skills Map** are considered personal skills and each scale contributes to the four major skill dimensions. The first major dimension may be thought of as Intrapersonal (by yourself) and includes the Self-Esteem (SE) score. This skill dimension is related to how you evaluate and accept yourself as a person. Research has demonstrated that self-esteem, as measured by the **Personal Skills Map**, is related to personal and career effectiveness.

The second major skill dimension on the **Personal Skills Map** focuses on Interpersonal (with others) skills and how you tend to communicate in stressful situations. This dimension includes the **Personal Skills Map** skill scales of Interpersonal Assertion (IA), Interpersonal Awareness (IAw), and Empathy (E).

The third major dimension focuses on skills that are important in effectively managing your daily environment and demands from your school/work setting. This Career/Life Effectiveness dimension includes the **Personal Skills Map** skill scales of Drive Strength/Motivation (DS), Decision Making, (DM), Time Management (TM), Sales Orientation/Leadership (SO), and Commitment Ethic (CE).

The fourth major dimension on the **Personal Skills Map** is Personal Wellness skills, and includes the Stress Management (SM) and Physical Wellness (PW) scales. This skill dimension is extremely important in both emotional and physical well-being.

The fifth dimension is related to problematic behaviors. **Personal Skills Map** research has clearly indicated that the Interpersonal Aggression (IAg), Interpersonal Deference (ID), and Change Orientation (CO) scales are indicators of problematic behaviors that negatively influence personal mental health and career effectiveness.

STRENGTHS AND CHANGE MAPS

Your **Personal Skills Map** results have indicated your present level of skill development in key areas of personal and professional effectiveness. You may have identified skill strengths and skill changes that may serve as a map or guide for your future development. The acknowledgement, acceptance, and use of skill strengths are necessary to further realize your potential for personal growth, interpersonal relationships, and career/life effectiveness.

If skill changes were indicated on your **Personal Skills Map** profile, you may want to focus and concentrate personal energy on learning new skills in the areas indicated. You will need to select the areas you need to develop. Each area has a corresponding skill-building unit that you will work on in order to increase your potential effectiveness.

INTERPRETING YOUR PROFILE

In the section that follows, major **Personal Skills Map** dimensions and scales have been defined, explained, and generally interpreted in terms of perceived strengths or change areas. Once you are aware of your skill strengths and have identified areas for change, you can develop a personal learning and training plan to improve your personal/career effectiveness.

A standard score at or beyond the value of 60 (top of profile) may be considered a current skill strength. A standard score between 40 and 60 represents an average or expected level of skill development. A standard score below 40 can be thought of as an awareness of a personal need to make changes and learn and develop new skills in that area.

You will soon have a chance to work on some of those skill areas.

SKILL DIMENSION 1: INTRAPERSONAL SKILLS

SELF-ESTEEM (SE): Self-concept, Self-image: Your score on this scale reflects how positively you view your current ways of thinking, feeling, and behaving. A high score (skill to enhance) indicates a healthy personality with a positive sense of self-worth. A low score (skill to develop) indicates a negative evaluation of self and dissatisfaction with ways of thinking and feeling. How you think, feel, and accept yourself as a person is directly related to the other personal skills you have assessed in completing the **Personal Skills Map**.

SKILL DIMENSION 2: INTERPERSONAL SKILLS

INTERPERSONAL ASSERTION (IA): Your score on this scale indicates your current assessment of how effectively you employ direct, honest, and appropriate expression of thoughts, feelings, and behaviors in your dealings with others. A high score (skill to enhance) indicates that you possess assertive communication skills and have the ability to be direct and honest in communicating with others without violating your rights as a person or the rights of others. A low score (skill to develop) indicates a lack of assertive skills and a tendency toward indirect, self-inhibiting, and self-defeating communication styles. Sometimes I am direct and straightforward with others under stress, but often I am not. I am not able, at times, to express my feelings or discuss things about which I have strong feelings. More often than not, I think I react appropriately.

☐ **SKILL TO ENHANCE**

When I am under stress, I understand my feelings and communicate them in a positive, direct, and straightforward way. I can describe my feelings and communicate them to someone else. The other person knows where I stand and understands me. He or she knows I have treated him or her with respect.

SKILL DIMENSION 2: INTERPERSONAL SKILLS

INTERPERSONAL AWARENESS (IAw): Your score on this scale is an indication of your current evaluation of how well you judge appropriate social, emotional, and physical distance in verbal and nonverbal interactions with others. A high score (skill to enhance) on Interpersonal Awareness indicates an ability to express feelings appropriately and spontaneously and to foster mutually comfortable, self-assured, and relaxed communications with others. A low score (skill to develop) on this scale indicates some difficulty in relating comfortably to others, manifested by behavior that is either too reticent or too brash.

Sometimes I'm not sure that other people accept me. I need to learn to be more comfortable with myself and sure of my ability to make friends easily.

☐ **SKILL TO STRENGTHEN**

I do alright with people, whether I know them well or not. I'm not at a loss for words. Being friendly and relating to people is not my strongest suit, but it does not hinder me either.

☐ **SKILL TO ENHANCE**

I make friends easily and others like to be around me. I am open and trusting of others. I am friendly and initiate (start) conversation. I express my feelings with others in a comfortable, self-assured way. I like being with people—all kinds of people.

SKILL DIMENSION 2: INTERPERSONAL SKILLS

EMPATHY (E): Sensitivity: Your Empathy score is an indication of how you view your current skill and ability to sense, understand, and accept another person's thoughts, feelings, and behaviors. Empathy is a primary characteristic of skilled communicators. Persons with strong Empathy tend to be sociable, outgoing people. A high score (skill to enhance) on Empathy indicates skill in understanding and sensing what others are saying, feeling, and doing. A low score (skill to develop) may indicate a lack of awareness of how others are trying to communicate their thoughts or emotions.

EMPATHY

ACCORDING TO YOUR **PERSONAL SKILLS MAP** RESULTS, YOU ARE CURRENTLY HERE (check the appropriate box):

WHAT THIS MEANS IS (check the appropriate box):

☐ **SKILL TO DEVELOP**

Sometimes I have a hard time listening to other people. I prefer not to be around people I don't like. I tend not to like people who are different from me. If strong emotions are involved, I can get defensive. I need to learn how to listen to people, how to respect our differences and accept myself and others as we are.

☐ **SKILL TO STRENGTHEN**

I'm not the most sensitive person in the world, but when I work at it I can come to understand what most people are saying and feeling. They seem to know that when they get my attention, I am able to listen well to what they are trying to communicate.

☐ **SKILL TO ENHANCE**

I can really understand other people very well, no matter who they are. I can almost walk in their shoes. My ability to gain acceptance from a wide variety of people is one of my strong suits. And that happens because people feel understood and valued by me—even people who are different from me.

SKILL DIMENSION 3: CAREER/LIFE SKILLS

DRIVE STRENGTH/MOTIVATION (DS): Motivation, Goal Setting: Your score on this skill is an indication of how you view your ability to marshal your energy and motivation toward the accomplishment of personal goals. Persons scoring high (skill to enhance) on Drive Strength appear to share and live by many of the values of self-actualizing people. High Drive Strength appears to be related to high self-regard and inner-directedness. A low score (skill to develop) may indicate difficulty in setting and accomplishing goals, a reluctance to experiment or take risks, and a lack of energy or motivation. Low Drive Strength may lead to an unyielding stance and resistance to a change in direction or an active course of action. An offshoot of low Drive Strength is often a refusal to accept responsibility for one's actions.

DRIVE STRENGTH/MOTIVATION

ACCORDING TO YOUR **PERSONAL SKILLS MAP** RESULTS, YOU ARE CURRENTLY HERE (check the appropriate box):

☐ **SKILL TO DEVELOP**

Lacks energy and enthusiasm. Rarely initiates projects or works independently. Fails to set goals and work steadily toward completion. Has difficulty completing work assignments or keeping commitments.

☐ **SKILL TO ENHANCE**

Possesses strong internal motivators. Effectively directs energy and attention to achieve specific goals and objectives. Can manage multiple tasks. Willing to experiment and take risks. Learns from, and is further energized by failure.

WHAT THIS MEANS IS (check the appropriate box):

☐ **SKILL TO DEVELOP**

Sometimes, I'm not sure where I'm going. I have a tendency to drift without clearly defined goals or plans. If an opportunity comes along, I might consider it or I might not. Sometimes my initiative and energy are low. I need to look more clearly at my dreams, establish some goals, and actively reach for them.

☐ **SKILL TO STRENGTHEN**

There is a general sense of direction to where I am going with my life, and I like to make things happen. My attention is generally divided in several directions at once rather than focused on one or two specific things. I feel motivated about my work. I can set goals fairly well.

☐ **SKILL TO ENHANCE**

I have high energy, and there is no shortage of things that excite me. I can set as well as achieve my goals. I have an ability to focus on what's most important and take action on it. It's like having a one-track mind at that time. I never feel like I'm spinning my wheels. I know where I am going and that feels good.

SKILL DIMENSION 3: CAREER/LIFE SKILLS

DECISION MAKING (DM): Your score on the Decision Making scale of **The Personal Skills Map** indicates your perceived skill in formulating and initiating effective problem-solving procedures. Persons scoring high (skill to enhance) on Decision Making tend to be self-actualizing, assertive, and inner-directed. Good decision-making skills are an important element in mental health. The ability to make decisions is a key ingredient of self-acceptance and positive self-regard. A low score (skill to develop) on this scale indicates a lack of decision-making skills and difficulty in solving problems.

DECISION MAKING

ACCORDING TO YOUR **PERSONAL SKILLS MAP** RESULTS, YOU ARE CURRENTLY HERE (check the appropriate box):

☐ **SKILL TO DEVELOP**

Has difficulty weighing alternatives and arriving at conclusions. Agonizes over choices. Spends an inordinate amount of time on minor as well as major decisions. Requires constant guidance and reassurance from friends or co-workers.

☐ **SKILL TO STRENGTHEN**

☐ **SKILL TO ENHANCE**

Possesses an advanced capacity to understand the overall context in which a decision is needed. Is generally self-assured and can apply focused critical thinking skills to deal with a wide variety of situations. Analyzes options and selects an appropriate course of action quickly and efficiently.

WHAT THIS MEANS IS (check the appropriate box):

☐ **SKILL TO DEVELOP**

At times I am a procrastinator. I put off making decisions or solving problems. Sometimes other people have found this frustrating. It bothers me at times, too. I need to learn how to be more direct in making decisions and solving problems. I need to see that when I procrastinate, I am, in effect, making a decision to do nothing.

☐ **SKILL TO STRENGTHEN**

Decision making is not easy for me, but I can usually do it well enough to get what I want. Sometimes I can solve problems effectively and at other times I don't do as well. I'm not very good at analyzing information, but I seem to know the best thing to do in many situations.

☐ **SKILL TO ENHANCE**

When I get into a bind, I can readily assess the situation and get out of it. I have a process for solving problems that I turn to when necessary. Whether by myself or in groups, I can usually get a handle on options and select from them an action that generally improves things. I am confident in my ability to analyze information and then make a decision.

SKILL DIMENSION 3: CAREER/LIFE SKILLS

TIME MANAGEMENT (TM): This scale is an assessment of your ability to organize and use time to further individual and career goals. A high score (skill to enhance) on Time Management is related to high self-regard, a sensitivity to one's own needs, and perseverance in completing tasks. A low score (skill to develop) may indicate a lack of skill or inability to organize time, difficulty in completing daily tasks, and a tendency to let events control one's actions rather than take charge and fulfill self-imposed commitments.

WHAT THIS MEANS IS (check the appropriate box):

☐ **SKILL TO DEVELOP**

It seems that I never have enough time to get everything done. I spend a lot of time worrying about this. I can work a lot of hours, but somehow, a million different interruptions prevent me from getting the important stuff done. There often seem to be too many loose ends. I need to learn how to plan my time more effectively so that the things that are truly important to me get done.

☐ **SKILL TO STRENGTHEN**

Usually, I am on top of what I have to do. At least the important things get done. When I'm hassled, I work a little harder at being organized and pull through it okay. I'm not a super-organized person, but I can be when absolutely necessary. I don't want to spend more than so much energy worrying about unfinished projects.

☐ **SKILL TO ENHANCE**

When I have a lot to do, I draw up a plan for myself and follow it. When people try to interrupt, I politely tell them to wait. I use my time effectively, and I feel well-organized most of the time. I do not feel pulled apart in all directions. I avoid procrastinating as much as possible. I schedule my time for learning, thinking, planning, and doing. I continually look for ways to improve my organizational skills.

SKILL DIMENSION 3: CAREER/LIFE SKILLS

SALES ORIENTATION/LEADERSHIP (SO): Leadership, Interpersonal Impact, Persuasiveness: This score reflects your assessment of how well you can influence people and have a positive impact on them. A high score (skill to enhance) indicates self-assured behavior and assertiveness in one's relationships with others. Persons scoring high on this scale may assume leadership of a group and demonstrate enthusiasm, energy, and warmth. A low score (skill to develop) may indicate a perceived inability to have an impact on others or a lack of skill in influencing others. Persons scoring low on this scale may be unable to see themselves as having a positive influence on others and may be uncomfortable or timorous in their approach to others.

☐ **SKILL TO STRENGTHEN**

In groups, my ideas are usually listened to and sometimes they are followed. I am not always the leader, but I don't feel like I'm always the follower either. I have about as much influence on others as I want. I frequently get the things I really want and try for.

☐ **SKILL TO ENHANCE**

I am usually acting in a leadership capacity. I am almost always a leader if and when I want to be. I know that I have a lot of influence on other people—on how they think and act. I am told that I am persuasive. Groups tend to go in the direction I suggest. Even when others have better ideas, my ideas are followed.

SKILL DIMENSION 3: CAREER/LIFE SKILLS

COMMITMENT ETHIC (CE): Task Completion: Your score on this scale indicates your perceived skill in your ability to complete projects and job assignments dependably and successfully. Persons scoring high (skill to enhance) on Commitment Ethic tend to be inner-directed and persevering in completing projects regardless of difficulties encountered. These persons trust themselves and are usually perceived by others as being dependable and committed. A low score (skill to develop) indicates a perceived inability or lack of skill in following through to meet responsibilities and commitments. These individuals may have a tendency to take on projects and then let them lapse because of a lack of commitment.

I tend to leave things until it's too late. I need to learn how to keep my energy flowing in the middle of any difficult task so that I can finish it in the most effective and efficient manner.

☐ **SKILL TO STRENGTHEN**

In general, I am dependable. I can be counted on even though I am not a marathon person. Sometimes I jump from one thing to the next and afterwards wish I had stayed to the end to get the reward I had worked for. If something is important, I finish it; but on other things, I procrastinate.

☐ **SKILL TO ENHANCE**

I complete projects no matter what and my word is good. If I say, "I'll do it", I'll do it, no matter what. I'm durable, and I'm there for the duration. It may not be perfect, but it'll be done, even if I have to work all night to finish it. My commitment has no exceptions.

SKILL DIMENSION 4: PERSONAL WELLNESS SKILLS

Persons scoring high on Stress Management are competent managers of time, flexible, self-assured, stable, and self-reliant. Good Stress Management skills are essential to creative and healthful living and are a key element of a healthy personality. A low score (skill to develop) indicates an inability or lack of skill in dealing with stress. Extremely low stress management skills may result in negative reactions to life stress with behavioral patterns and habits that may be psychologically or physically self-destructive. I need to learn how to use the tension creatively to boost my energy so that I can accomplish whatever comes my way.

☐ **SKILL TO STRENGTHEN**

I have a lot of stress right now, but I can't say it gets me down. I usually am on top of it. I reserve some stress-free moments to refresh myself. I could manage myself better than I do, but I'm not doing badly either.

☐ **SKILL TO ENHANCE**

I manage my life well. I work hard, but don't feel under more stress than I want. I feel satisfied and in charge of myself. I enjoy some tension, and it never gets me down. I have learned to relax and do it. When stressful situations occur, I know they will end. In fact, some stress keeps me sharp.

SKILL DIMENSION 4: PERSONAL WELLNESS SKILLS

PHYSICAL WELLNESS (PW): Your score on this **Personal Skills Map** scale reflects the extent to which you have currently developed healthy attitudes and living patterns that are important to your physical health and well being. Physical Wellness is closely related to positive stress management and self-esteem as measured by the **Personal Skills Map**. A high score (skill to enhance) on this scale indicates that you see yourself as a person who has developed healthy self-control of potentially harmful behavior patterns and who is currently physically healthy. A low score (skill to develop) indicates perceived problematic behaviors and the awareness of a personal need to further develop life skills that are important to physical and emotional health.

SKILL DIMENSION 5: PROBLEMATIC BEHAVIOR

YOUR INTERPERSONAL COMMUNICATION MAP: How effectively you communicate with others is an important element in effective interpersonal relationships. The communication styles of Interpersonal Assertion (IA), Aggression (IAG), and Deference (ID) identify your primary and secondary communication styles. Interpersonal Assertion is manifested in direct, honest, and appropriate communication of thoughts and feeling to others. Note: The score for Interpersonal Assertion is found in SKILL DIMENSION II:

INTERPERSONAL SKILLS . Interpersonal Aggression and Interpersonal Deference are negatively correlated to the other skills on the Personal Map. High scores on these skills may indicate self-defeating communication styles.

UNDERSTANDING YOUR COMMUNICATION STYLE: Most persons use all three communication styles (assertion, aggression, and deference) to some extent in all their communications with others. Your highest score on these three scales indicates your primary communication style, and the next highest score indicates your secondary style.

If your highest score is in Assertion, that is your primary interpersonal communication style. That is, you employ direct, honest, and appropriate expression of thoughts, feelings, and behaviors in communication with others. A high (primary) score on either Aggression or Deference may indicate a lack of communication skills or the need to adjust them. An effective assertion style is important for a healthy personality. An excess of either aggression or deference in interpersonal communication negatively impacts on all the other personal skills and gives rise to self-defeating behaviors.

SKILL DIMENSION 5: PROBLEMATIC BEHAVIOR

INTERPERSONAL AGGRESSION (IAG): A measurement of the degree to which an individual employs a personal communication style that violates, overpowers, dominates, or discredits the other person's rights, thoughts, feelings, or behaviors. A high score on this scale may indicate insensitivity toward others and low self-acceptance expressed by hostile and attacking behaviors in interpersonal exchanges. High Interpersonal Aggression is related to the personality characteristics of rebelliousness, resentment, and oversensitive response to real or imagined affronts.

INTERPERSONAL AGGRESSION

ACCORDING TO YOUR **PERSONAL SKILLS MAP** RESULTS, YOU ARE CURRENTLY HERE (check the appropriate box):

☐ **NORMAL**

☐ **NORMAL**

I sometimes come on a little too strong, but for the most part I can control my statements. I can tolerate and accept other peoples' views most of the time. In order to get my point across, I sometimes get a little pushy. I do try to respect other peoples' views and feelings.

☐ **HIGH**

Communicates in an offensive manner that violates, discredits, and/or dominates another's thoughts and feelings. Actively avoided by others. Frequently defensive and uncompromising in group processes.

☐ **HIGH**

SKILL DIMENSION 5: PROBLEMATIC BEHAVIOR

INTERPERSONAL DEFERENCE (ID): A measurement of the degree to which an individual employs a personal communication style that is indirect, self-inhibiting, self-denying, and ineffectual for the accurate expression of thoughts, feelings, and behaviors. A high score on this scale may indicate a lack of skill in interpersonal dealings and difficulty in standing up to others. High Interpersonal Deference is related to the personality characteristics of apprehensiveness, shyness, and over-sensitivity to threat or conflict.

INTERPERSONAL DEFERENCE

ACCORDING TO YOUR **PERSONAL SKILLS MAP** RESULTS, YOU ARE CURRENTLY HERE (check the appropriate box):

☐ **LOW**

☐ **HIGH**

Frequently apprehensive and timid in dealings with others. Unable to articulate a position and usually concedes defeat when interests conflict. Self-denying and overly sensitive.

☐ **HIGH**

I can never defend my position. I often feel apprehensive, shy, and timid in dealing with others. When in an argument, I usually back down and let the other person win. I often become overly sensitive to others' comments. I usually let others get their way.

PERSONAL CHANGE ORIENTATION

Your Personal Map and Interpersonal Communication Map chart your current assessment of eleven personal skills and indicate what you perceive as your primary and secondary communication styles. The score on your Personal Change Orientation is an indication of the magnitude of change you perceive as desirable for developing your personal and professional effectiveness.

Research has demonstrated that self-assessed change areas (high scores) on the Interpersonal Aggression (IAg), Interpersonal Deference (ID), and Change Orientation (CO) scales may reflect self-defeating behaviors. Three or more low scores (skills to develop) on any of the eleven **Personal Skills Map** skills scales, a primary communication style of either Interpersonal Aggression (IAg) or Deference (D), and a high score on Change Orientation (CO), present a definite awareness and recognition of the need for specific training in skill enhancements in order to expand personal skills, improve interpersonal relationships, and promote career/life effectiveness.

CHANGE ORIENTATION (CO): Your score on this scale indicates the degree to which you are motivated and ready for change in the skills measured by the **Personal Skills Map**. Change Orientation is negatively correlated to all personal skill scales except Interpersonal Aggression and Interpersonal Deference. A high score on Change Orientation indicates dissatisfaction with current skills and a strong conviction of the need to make personal changes.

Persons scoring high on this **Personal Skills Map** scale manifest an awareness and a need for personal change. Feelings of stress, anxiety, and tension regarding current behavior may be characteristic of persons scoring high on this scale. Low scores on Change Orientation indicate satisfaction with current skills and behavior.

☐ **LOW**

Highly satisfied with existing skill levels and behavioral conduct. Confident, self-accepting and possessive of a profound internal sense of personal strength and competence across a wide range of indicators.

I feel comfortable with myself, and I know I am a very competent person who has a lot to give. I am satisfied in the way I perform my work. I am successful at work and in life in general.

☐ **NORMAL**

I feel pretty good about my ability to handle problems in conflictive situations. I need just a little more work in a few areas, and I will be very successful.

☐ **HIGH**

1. Dwayne argues with his parents about clothes. His parents think some of his clothes look inappropriate, but Dwayne says everyone else is wearing the same style.
2. Abby's manager yelled at her for leaving work early. Abby got permission from her boss a week ago to leave early for a doctor's appointment.
3. Tim and his older brother never got along. One day his brother calls him "zit face." Instead of laughing it off or trading insults, Tim punches his brother and knocks out a tooth.
4. Harry's two teenage sons are arguing again. One son wants Harry to give him a ride to a movie at 7pm and the other wants Harry to drive him to meet a friend at the train station at 7pm.
5. The teacher punished the whole class after two students got into a fist fight.

Exercise #2 – What Would You Do

Directions: Read the scenario below. With your partner, discuss options for how to respond. Make a list of options and the benefits and risks of each.

You just took a seat on a crowded subway when the person seated next to you lights up a cigarette. The subway has several *No Smoking* signs. You tell the smoker “You shouldn’t be doing that. It’s against the rules to smoke here.” The smoker replies, “Too bad. If you don’t like it, move!”

Options	Benefits	Risks

Exercise #3 – Stop the Smoker

Directions: Read the scenario below and think about how the passenger might have used communication skills to avoid an escalation of the conflict. Role-play a new conversation from the beginning with your partner, where one of you is the passenger and one is the smoker. The passenger's goal is to get the smoker to put out his cigarette. The passenger has had training on conflict resolution; the smoker has not. The passenger must use communication skills alone to achieve the goal. Neither party can hit, threaten, or bribe the other. The smoker is allowed to be difficult, but not completely unreasonable.

When you are done, trade roles with your partner. Take notes on what communication approaches worked best.

Scenario: A passenger just took a seat on a crowded subway when the person seated next to the passenger lights up a cigarette. The subway has several *No Smoking* signs.

Passenger: "You shouldn't be doing that. It's against the rules to smoke here."

Smoker: "Too bad. If you don't like it, move!"

Passenger: "I'm never going to move. I was here first and you are the one breaking the rules."

Smoker: "What are you, the subway smoking police? Mind your own business, you jerk!" (Smoker blows a cloud of smoke into the passengers face.)

Activity #1 – Conflict Scenarios

Directions: With a partner, choose one of the scenarios listed below to role-play.

1. Pete and Jim are brothers. Their parents are out for the night and the two brother's plan on making popcorn and watching a movie. Pete lies down on the couch while Jim finishes making the popcorn. When Jim comes into the living room, he says "Hey, it's my turn to have the couch. Move it!" Pete disagrees: "You had the couch the last time we watched a movie."
2. Jaiden and Rowan are good friends. Jaiden asks Pat out for a date. While they are on their date, they run into Rowan, who starts flirting with Pat. Jaiden gets angry and yells at Rowan, then storms away with Pat. The next day at school Rowan makes fun of Jaiden for getting so mad over a little flirting.
3. Caleb and Tyler are friends at school. They've been assigned a project at school, but can't agree on who should do what part of the project. Now they are arguing.
4. Angel and Jasmine are best friends. In ninth grade, they made a promise to each other that if they kept up their grades, they both would go to a state college three hours away. It's senior year, and Angel has been accepted into the college of her dreams in another state, with a scholarship. Jasmine is mad that her friend will not be joining her at the state college, as she promised.

Cadet Challenge Exercise Descriptions

1) CURL-UPS

Conduct curl-ups on a flat, clean surface, preferably with a mat. Start in a lying position on your back with your knees bent so your feet are flat on the floor about 12 inches from your buttocks. You should have your arms crossed with your hands placed on opposite shoulders, and your elbows held close to the chest throughout the exercise. Have a partner hold your feet at the instep. At the command, “ready, go,” raise the trunk of your body, curling up to touch the elbows to the thighs, and then lower your back so your shoulder blades touch the floor/mat. This constitutes one repetition of a curl-up. During each repetition, bouncing off the floor/mat is not allowed and the fingers must touch the shoulders at all times. Complete as many curl-ups as possible in 60 seconds.

Alternative: Partial Curl-ups: Partial curl-ups can be used as an alternative to curl-ups. Lie on a cushioned, clean surface with knees flexed and feet about 12 inches from buttocks. Do not hold or anchor the feet. Arms are extended forward with fingers resting on the legs and pointing toward the knees. Your partner should be behind your head with hands cupped under your head. Curl up slowly, sliding the fingers up the legs until the fingertips touch the knees, then curl back down until the head touches your partner’s hands. The curl-ups are done to a metronome (or audio tape, clapping, drums) with one complete curl-up every three seconds. Continue until you can do no more in rhythm (have not done the last three in rhythm) or have reached the target number for the test.

2) SHUTTLE RUN

The shuttle run is conducted on an area that has two parallel lines 30 feet apart. The width of a regulation volleyball court can serve as a suitable area. Start from the standing position. At the command “ready, go,” run to the opposite line, pick up one block, run back to the starting line, and place the block behind the line. Run back, and pick up the second block, and carry it across the line. Two runs are allowed for this event, with the better of the runs recorded. Scores are recorded to the nearest tenth of a second.

3) V-SIT REACH

The V-sit reach is conducted on a flat, clean floor. Use a yardstick and adhesive tape to make a baseline that is two feet long. Make a measuring line perpendicular to the midpoint of the baseline extending two feet out from either side of the baseline. Place one-inch and half-inch marks along the measuring line with “0” where the baseline and measuring line intersect. Remove your shoes and sit on the floor with the soles of your feet placed immediately behind the baseline. The measuring line should be between your heels, which are 8 to 12 inches apart. Clasp your thumbs so that your hands are together, palms down,

and place them on the floor between your legs. While your legs are held flat on the floor by a partner (or partners), perform the exercise while keeping the soles of your feet perpendicular to the floor (feet flexed). Slowly reach forward along the measuring line as far as possible, keeping the fingers in contact with the floor. You receive three practice tries for the V-sit reach. On the fourth extension, hold your farthest reach for three seconds. Scores are recorded where fingertips touch the floor to the nearest half-inch. Scores beyond the baseline are recorded as plus scores, whereas those behind the baseline are recorded as minus scores.

Alternative: Sit and Reach: The sit and reach exercise is done in a specially constructed box with a measuring scale marked in centimeters, with 23 centimeters at the level of the feet. Remove your shoes and sit on the floor with knees fully extended, feet shoulder-width apart, and soles of the feet held flat against the end of the box. With hands on top of each other, palms down, and legs held flat, reach along the measuring line as far as possible. After three practice reaches, the fourth reach is held while the distance is recorded. Participants are most flexible after a warm-up run. Best results may occur immediately after performing the endurance run. Legs must remain straight, soles of feet against the box and fingertips of both hands should reach evenly along measuring line. Scores are recorded to the nearest centimeter.

4) ONE-MILE RUN/WALK

This event is conducted on a flat area that has a known measured distance of one mile with a designated start and finish line. You will be given a lightweight numbered device to carry or wear in any manner that will not slow you down while running.

5) PULL-UPS

Pull-ups are conducted using a horizontal bar approximately 1.5 inches in diameter. A doorway bar or a piece of pipe can serve the purpose. The bar should be high enough so you can hang with your arms fully extended and your feet free of the floor/ground. Assume the hanging position on the bar using either an overhand grasp (palms facing away from body) or underhand grip (palms facing toward body). Begin the exercise by first raising your body until your chin is over the bar without touching it. To complete one repetition, the body must be lowered to the full-hang starting position. During each repetition, the body must not swing, legs must not kick or bend, and the pull must not be jerky. Scoring is done on the number of pull-ups you can correctly execute. There is no time limit on this event.

Alternative: Right Angle Push-ups: Lie face down on the mat in push-up position with hands under shoulders, fingers straight, and legs straight. Your legs should be parallel and slightly apart, with the toes supporting the feet. Straighten the arms, keeping the back and knees straight, then lower the body until there is a 90-degree angle at the elbows, with the upper arms parallel to the floor. A partner holds their hand at the point of the 90-degree angle so that you go down only until your shoulder touches the partner's hand, then back up. The push-ups are done to a metronome (or audio

tape, clapping, drums) with one complete push-up every three seconds, and are continued until you can do no more in rhythm, have not done the last three in rhythm, or you have reached the target number for the 85th percentile Health Fitness Award.

Alternative: Flexed-arm Hang: The flexed-arm hang should be used when a Cadet cannot execute one pull-up. Using a horizontal bar as in the pull-ups, climb a ladder until your chin is above the bar. Begin the exercise by grasping the bar with your hands, shoulder width apart, using either an overhand grasp (palms facing away from body) or underhand grip (palms facing toward body). At the command “ready, go,” step off the ladder.

Simultaneously, an assistant instructor will remove the ladder and prevent any forward swinging of the legs. The Cadet’s chin should be level above the bar. Kicking and other body movements are not permitted while you are on the bar. The stopwatch starts on the command “go” and stops when your chin rests on the bar, the chin tilts backward to keep it above the bar, or the chin falls below the level of the bar. Scores are recorded to the nearest second.

Exercise #1 – Track Your Progress

Directions: At least **five times** prior to the date set by your instructor for the Cadet Challenge, complete the exercises that make up the Cadet Challenge. Try to achieve the 85th percentile standards listed in this unit. Record the dates you complete the exercises and your scores on the chart on the bottom of the page.

Since you are practicing these events on your own, the following guidelines will help:

- For the one-mile run/walk and shuttle run, try to run on a track—many already have distances marked. If not, choose a location where you will be able to measure and mark these distances. Make sure the running surface is smooth and that there is little pedestrian, bicycle, or automobile traffic, so you will not be slowed down or distracted.
- Have a friend or family member time you in the one-mile run/walk, shuttle run, and curl-ups; have them hold your feet and legs for the curl-ups and V-sit reach.
- If you do not have blocks for the shuttle run, use any light, small items that you can grip easily that are approximately 2" x 2" x 4".
- For the V-sit reach, use any straight line on the floor as your baseline (i.e., where carpet ends and tile begins, or place a piece of tape on the floor). Place a yardstick perpendicular to this line with 0" at the baseline. Make sure you place the heels of your feet on either side of where the yardstick meets the baseline, and measure the number of inches you stretch past the baseline with the yardstick.

Chapter 6: Service Learning

Orientation to Service Learning [U1C6L1]

What you will accomplish in this lesson:

Identify the components of service learning

Why this lesson is important:

John F. Kennedy reminded Americans to “Ask not what your country can do for you; ask what you can do for your country.” Take a look around you. There are many problems and people in need. Service learning experiences can become the starting point for reaching out—doing something good for those around you and making the world a better place. In this lesson, identify the components of service learning and begin planning how you can help make a difference in your community.

Essential Question:

How can participating in service learning make a difference to me and others?

What you will learn in this lesson (Learning Objectives):

- Distinguish between service learning and community service
- Explain how service learning projects relate to Cadet learning in the classroom
- Compare the types of service opportunities within your community
- Identify the benefits of serving others within a community
- Define key words: community service, learning log, orientation, reflection, service learning

You will have successfully met this lesson's purpose:

- by evaluating examples of service learning projects to determine if they meet the requirements for a JROTC service learning project
- by submitting your learning log with reflection responses about the features and benefits of service learning
- when you describe how the project benefits the community (school or greater community)
- when you describe how the project enhances learning
- when you describe the role of teamwork in accomplishing the project
- when you identify one or more JROTC competencies addressed by the service learning project
- when you reflect on your insights, thoughts, and ideas concerning the features and benefits of service learning

Exercise #1 – What is Service Learning?

Directions: Listed below are the components for a service learning project. Use this sheet to evaluate a potential project to determine if it could be designed to meet the required components of the service learning project. One of the key features of service learning is that it directly relates to student learning in the classroom.

1. Briefly describe the potential service learning project.
2. Evaluate the potential project using the components of a service learning project.

Components of a JROTC Service Learning Project	Does this project include this component?	How might this project be modified to include this component?
1. Project benefits the community		
2. Project enhances learning		
3. Project relates to the JROTC curriculum		
4. Project addresses one or more JROTC competencies		
5. Project requires teamwork to accomplish the project		

Handout #1 – Learning Log Example

Date	What I did....	What I thought...	What I felt...	What questions do I have?	What I might do as a result of my participation?

Exercise #2 – Service Learning Scenarios

Scenario #1 – Veterans Recognition	<p>Major Willis spends time with many of the veterans in town at the VFW listening to their stories. She realizes that many people in town do not know of the sacrifices many made during the wars. She suggested that perhaps this was an area for Service Learning. Students to listen to veterans from WWII, Vietnam, and Afghanistan. The students took oral histories, took photos, filmed the sessions, and started compiling histories for each veteran. Students addressed the lack of historical documentation of the veterans' stories and the lack of recognition for the service the veterans provided. Students worked together to compile a book of histories, to create an exhibit of photographic and artistic representations of their experiences, and to start a documentary film. Students presented the histories to the veterans at a ceremony around Veterans' Day and presented the histories to the town and school libraries. Cadets continually shared entries from their learning logs and reflected on the benefits they were providing in relation to their classroom studies.</p>
Scenario #2 – Highway Clean Up	<p>Living in a city with a largely expanding population, community members were witnessing the increase of trash accumulating on the roadsides and its effects on the environment (pollution, toxic hazards, etc.). First Sergeant Petty asked his Cadets what service activities they could provide to combat the problems they were encountering. After researching the situation, Cadets decided to “adopt a roadway.” They would be responsible to clean up two miles of Highway Q and the county would put up a sign designating their battalion as the service group cleaning that stretch of road. They organized teams and assigned responsibilities to each Cadet to complete the semi-annual clean up. One team developed an ad campaign to encourage school-wide participation. Students outside of JROTC became motivated and formed a school club to also adopt a highway. The principal was very happy and complimented the battalion on their efforts.</p>
Scenario #3 – Study Skills	<p>Captain Holmes and the other teachers were talking about the new state level testing that would begin for fourth grade students next year. They were concerned that these students might not perform well because of poor study skills. The battalion's main objective was to increase confidence levels of the fourth grade students, while actively involving JROTC Cadets. Within this objective, students were taught communication and study skills. JROTC Cadets were empowered by being placed in a teacher role and they organized the lessons by area of expertise to work with fourth grade students addressing their specific study skill needs. In addition, the Cadets met among themselves to develop teaching materials, classroom resources, and to create a list of supplies needed to successfully mentor. The Cadets reflected on each phase of their project and wrote their reflections in their learning logs.</p>
Optional: Brainstorm your own Scenario	

Scenario #1 – Veterans Recognition
What needs were met?
What service learning components were included?
What essential factors of service learning were demonstrated?
How does this project relate to JROTC curriculum?
Which competencies does this project address?
Scenario #2 – Highway Clean Up
What needs were met?
What service learning components were included?
What essential factors of service learning were demonstrated?
How does this project relate to JROTC curriculum?
Which competencies does this project address?

Scenario #3 – Study Skills
What needs were met?
What service learning components were included?
What essential factors of service learning were demonstrated?
How does this project relate to JROTC curriculum?
Which competencies does this project address?
Optional: Brainstorm your own Scenario
What needs were met?
What service learning components were included?
What essential factors of service learning were demonstrated?
How does this project relate to JROTC curriculum?
Which competencies does this project address?
