

# **Unified Arts Newsletter 3rd Quarter**

**Wellston Middle School**  
April 2022

The Unified Arts Department has been busy at work! From learning new skills in PE to creating codes in computers, students covered a wide realm of activities last quarter.

Students in Mrs. Johnson's Computer classes 6th graders learned how to program Cue robots, while the 7th graders learned how to code and wire their Secrets and Safes projects. 8th graders coded a Charades game, and played it in class.

In Mrs. Dixon's ICU class students completed 3,232 assignments so far this year! Students are showing their knowledge of Ohio's Academic Content Standards!

Mrs. Everett's Art classes are busy preparing for their Art Show to happen on May 12th from 3:30-6:30pm. Students should have received letters with times for each grade level.

Many of Mrs. Davisson's Choir students participated in a fabulous performance of "Fiddler on the Roof" this past weekend. They put on three performances that utilized many students grades 5-12. 6th grade choir student Emily Spangler, who also performed in the musical, was recently selected to participate in the WorldStrides Honors Performance Series Middle School Honors Choir in New York City this summer.

Mrs. Talley's Band students are preparing music for their Spring Concert that will take place on May 15th at 2pm. The theme for the concert is "Movie Music," and will include pieces from Ghostbusters, Harry Potter, Hamilton, Pirates of the Caribbean, and more. 21 middle school students from 7th and 8th grade were selected to participate in the District 17 Honor Band on May 7th. They are currently learning their music for the one day event where they will join students from other schools in the district to perform a concert. The Wellston Golden Rockets Marching Band leaves this week to travel to Orlando, FL, to perform at Magic Kingdom in the 50th Celebration of Walt Disney World.
