

Modern European History

Unit 7 - Industrialization, Nationalism, Imperialism

Study Guide

The assessment for this unit will be a “mini” objective exam, comprised of matching, multiple-choice, true and false, fill-in, and short answer questions as well as a map of Africa that will count as a 50-point assessment (rather than the normal 100 points). Although shorter and less difficult than our normal assessments, you will still want to prepare.

Suggestions for preparing for your “mini”- exam:

1. Find a quiet place without distractions for you to study.
2. Review the handouts and notes you completed during this unit (there were only 3 and your map).
3. Go through the list of information on this study guide, writing out an identification of each item.
4. Quiz yourself or have someone else quiz you on the items at least once the night before the exam.
5. This assessment will take place next class:
Orange 3-4: **Wednesday, April 16th**
Black 3-4: **Thursday, April 17th**

You should be able to identify/describe/explain the following (remember – this is a sampling – not all - of information that may be on the exam):

Industrialization

Industrial Revolution
crop rotation
factors of production
enclosure
domestic system
industrialization
entrepreneur
urbanization
