

COVID-19 Testing Options in Hancock County (as of February 8, 2021):

The top two locations offer rapid PCR testing for **asymptomatic** and **symptomatic** school employees and students. The PCR test detects genetic material in the COVID-19 virus and is considered more reliable and accurate than the antigen test which detects protein fragments in the virus. The most recent guidelines given by the Indiana State Department of Health. ***Please note that if you receive a negative antigen test result, the Indiana Department of Health now requires a negative PCR test prior to students and staff returning to school***

PCR testing locations:

Hancock Immediate Care

124 W. Muskegon, Greenfield (across from Aldi)
Call 317-468-4357 to schedule an appointment
Daily, 9am-9pm

Hancock Gateway Immediate Care

6189 W. John L. Modglin Dr., Greenfield (Mt. Comfort & I-70 behind McDonald's)
Call 317-866-7300 to schedule an appointment
Monday-Friday 8am-8pm
Saturday and Sunday 8am-5pm

Antigen Testing Locations:

FirstCare

Please note that the rapid test done at FirstCare is the antigen test and is less accurate than the PCR tests available at the above locations and a negative PCR result is required if the antigen test result is negative

1317 N. State St., Greenfield (across from Don Rigo)
Monday-Friday 8am-8pm
Saturday and Sunday 8am-6pm
You must reserve your spot in line. You may do so at: [FirstCare Testing](#)

Indiana State Department of Health

Please note that the rapid test done at the state testing site is the antigen test and is less accurate than the PCR tests available at the above locations and a negative PCR result is required if the antigen test result is negative

Different locations available for testing based on zip code entered. Hours vary according to the day of the week with Saturday appointments available. Reserve your spot online here:
