

Vision Board

WHAT WE GIVE ENERGY TO, IS WHAT WE BECOME

OBJECTIVE:

To shape an artistic investigation of present-day life, as it relates to you, in the form of a Vision Board using contemporary practices of art and design.

A digital vision board collage featuring various images and text. The background is a mix of soft-focus photos, including a winter scene with a snow-covered tree, a close-up of a textured surface, and a city street with trees. Overlaid on this are several text elements: a large, white, handwritten-style title; a red circled 'A+' in the top left; a quote in a pink box in the top right; a quote in a pink box in the middle left; a quote on a piece of paper in the center; and a phrase in a grid of letters in the bottom right.

Vision Board Assignment

- You will begin by making a list of things you would like to focus on and achieve this year.
- I would like you to consider and include your goals, both academic and personal, your dreams, your passion(s), personal health, your spiritual connection (whatever that may be) and how it will guide you in your interactions with others.
- When you have completed your list, you may begin searching for your images, inspirational quotes and any other info you would like to include. Save these in a folder on your computer desktop.
- Once you have your images, quotes and any other info you decide to collect, you will start to build your Board.
- You will click Create a Design and select the "Your Story" template and begin uploading your images into the template and start organizing them.
- When you are certain your Board is complete you will want to move it to your phone and an editing app for more options before you turn it in.
- You are being graded on your compositional layout, balance and the inclusion of the above goals and aspirations.
- This is a 100 point project and will be due in Blackboard on Friday, 1/8.
