

THIRD GRADE

WARM/COOL TREES

Either have students make a 1 inch grid on their pages, or print these grids from a site like, printfreegraphpaper.com

Then using a compass, or a plate/lid/bowl etc. draw a circle on the page.

Draw the outline of a tree, making sure that the branches stay within the circle.

Color the circle in either warm or cool colors, and use the opposite to color the rest of the background.

STUDENTS CAN EITHER MAKE THE TREE A SILHOUETTE OR DECORATE IT WITH LINE DESIGNS

SUPPLIES NEEDED

MARKERS, COLORED PENCILS

3RD GRADE WARM/COOL TREE

FOURTH GRADE/FIFTH GRADE (middle school will also have fun with this).

WARM COOL SUN/MOON ZENTANGLE AND PATTERN ART

Email pictures/samples to the students so they can see some examples.

Have students design a page where half represents the sun and the other half the moon. Then they fill it in with patterns, zentangles etc. and then color half in warm colors and half in cool colors.

SUPPLIES NEEDED

MARKERS, COLORED PENCILS/SHARPIES
