- **Summer reading novels (hard copy)**
- Notebook paper
- earphones/earbuds
 - One subject notebook (minimum of four notebooks)
- Graph paper
- Ruler
- Protractor
- Highlighters
- Markers
- Paper calendar (cell phone calendar works too)
- White copier paper (1 pack)
- 3-ring binders (one for each class)
- Pens and pencils
- Pencil sharpener (small plastic)
- Post-it notes
- Index cards
- Highlighters (multicolor pack-hot pink, blue, yellow, green)
- Folders with pockets (one for each class)

Pre-calculus and Calculus Specific (with everything also listed above)

- TI-84 Plus OR TI-Nspire calculator

Students enrolled in Art classes will have an additional fee for the course.

Given the current world situation, students are entitled to FREE access to a graphing calculator emulator for the computer from Texas Instruments. Navigate to the following website:

<https://education.ti.com/en/software/update/free-ti-software-license-student>

At this site, choose the Ti-84 family version and receive your free code, good for 6-months of free access to the emulator software. It is recommended students try to install the software on a home computer since administrative privileges are required and thus it cannot be installed on the school laptops. Activate the software as late as possible to get the most use of it next year in school - make a note in your calendar. This is especially important for students taking Intro to Calculus, Calculus, and Statistics & Probability next year if you do not currently own a graphing calculator
