Early Dismissal Procedure:

Due to the increased number of students leaving school early, it is important that you follow the early dismissal procedures to avoid classroom interruption. **On the occasions that you need your student to be dismissed early, a prior written note will be REQUIRED.** The note must be brought to the front office prior to the beginning of school and should include the following information: student's first and last name, date, time of dismissal and parent signature. Following this procedure will allow the student to leave class at the assigned time without interrupting instruction.

Please contact Mrs. Yost with any attendance questions or concerns.

Tardies

At Weddington High School, we believe that teachers have a right to teach and students have a right to learn. Instructional time must be protected and without interruption in order to assure that quality teaching and learning are taking place in every classroom, every day. Instruction should and will be conducted from the time students enter the classroom through the time the bell rings and they are released by their teacher. At the beginning of class when the bell rings, teachers are to

mark students arriving late to class tardy in PowerSchool. This applies to ALL blocks and lunches. Students missing more than 15 minutes of class, will be marked absent for the block. Keep in mind, students who leave a class should have a pass to avoid being marked incorrectly. * The WHS tardy policy can be found in the WHS student handbook which can be accessed by clicking [HERE](#).

*At the beginning of each semester, student tardies will reset**

UCPS has enabled an automated message that will go out each day to the parents of students who were tardy for one or more classes that day.

The South Piedmont Community College (SPCC) Career and College Promise (CCP) Program offers students an opportunity to earn college credit, tuition-free, while still in high school. These courses can be taken in a variety of formats (in-person and online), and they offer subjects ranging from transferable general education courses (English, Math, Science, etc.) to career and technical education courses (business, IT, medical assisting, welding and much more!). These courses can also help students achieve credits toward high school graduation while simultaneously earning college credit.
