Web Page Planning Quiz

Part 1 (10 points): 10 questions on Google Forms

Part 2 (10 points): Storyboard is a visual representation of the Web site. As you plan a Web site about a ski resort, answer the following questions:

1. What is the mission statement, goals of the site, and target audience?
2. What information will be included?
3. What Web page elements will best convey the information?
4. What navigation scheme will be used?
5. What look and feel should the pages have?
6. What color scheme will you use?

List page titles and file names. Create a sketch of the home page and a sub page. The sketch should show the placement of elements on the page and the basic look and feel that you envision.
