

WEEK FIVE Sept. 24-28

LESSON PLANS

LINDA FOOS- SEVENTH GRADE SCIENCE

MONDAY, SEPT. 24

Viruses

Objective: Students will complete activities over viruses and start chapter 2 review

*Complete section 3- viruses

* Study Guide- Chapter 3

TUESDAY, SEPT.25

Chapter 2 study session

Objective: Students will review information over chapter 2 cell, using online assessments.

* Class review

*online quizzes

WEDNESDAY, SEPT. 26

Cells

Objective:

Students will take chapter 2 online assessment.

*chapter 2 assessment

THURSDAY, SEPT. 27

Chemistry of Life

Objective: Students will list the differences among atoms, elements, molecules, and compounds.

*Introduce the periodic table

*p. 66-73

FRIDAY, SEPT. 28

Chemistry of Life

Continued from Thurs.

Objective: Students will explain the relationship between chemistry and life science and how organic compounds are different from inorganic compounds.

*p. 66-73

STANDARDS MET FOR THE WEEK:

SCIENCE:

7.L.1.1 ~ Students are able to identify basic cell organelles and their functions7.CT.2.1 ~

Recognize differences between applications and their uses.

7.CT.2.2 ~ Demonstrate ways that communication technologies interrelate7.L.3.1.i.a ~ Describe processes by which matter and energy flow through an ecosystem.NC.4.1 ~ Apply the universal

nature of the design process to different situations.
