# PENCIL POSTER

This writing poster was inspired by Cara Carroll. With her permission I have re-created this poster in a digital format, so teachers all over the world can use it! To make your own writing poster, print the pencil poster pages onto white card stock (the poster is made up of four pages), cut out, glue together, and laminate. This download also includes a small version of the poster (in color and B&W) for your students to glue into their writing notebooks (or to use as a bookmark).

# LARGE POSTER

If you would like to print the pencil as a large poster (instead of four sheets of paper), then this section is for you! The following poster size is 18 x 22. Most print shops will be able to accommodate this size. You can print two pencils to a poster (and share with a teacher friend) or one. The cost will probably be the same. After printing, cut out along the pencil shape and laminate.
