

WHAT DOES THE HYBRID MODEL “SCHOOL DAY” LOOK LIKE FOR MY K-3 STUDENT?

FRSD will be in a HYBRID Model for Kindergarten through 3rd grade students to begin the school year, as long as health metrics allow. This means your child will be both on-site and at-home for their learning.

- Students will be assigned to either an A or B cohort, based on physical residence.
- A Day student= Attends on-site school Tues/Thurs.
- B Day student= Attends on-site school Wed/Fri.
- While on-site, students will receive teacher directed instruction from 8:00-2:30
 - Students will have an opportunity for breakfast, recesses, lunch, PE, and other activities.
- On the “at home days” students will be working independently on applied learning, homework, practice, supplemental and extension activities. This will be at the direction they received from their teachers during the on-site time.
- Teachers will work closely with students and families to help every child be successful.
