Explanation
In this class we will learn about other people, places, times, and events. How you look at the world around you depends in part on who you are as a person.

Task
1.   Attach a photo of yourself to the center of an 8 1/2 x 11 piece of paper. The photo should be fairly recent (not a baby picture) and clearly show your face (not you in a group of 20).

2.   Write your full name (first and last) in **large** letters at the top.

3.   Write the category and answer to each of the following on your paper:
>   favorite sport or extra-curricular activity
>   favorite type of music or band
>   favorite movie, TV show, or website
>   favorite book or magazine
>   future occupation

4.   Be sure all information can be easily seen from at least 5 feet away.

5.   Be creative – use color, drawings, graphics, etc. to make your poster as attractive as possible!

6.   Be sure to write what each item is; e.g. "Favorite Sport: Hockey"

7.   Be sure to list only one specific answer for each category; don't put "Favorite Music: I don't know" or "Favorite Music: Rap and Country" (two things can't BOTH be a favorite!)

8.   See the back for my example.

Credit
None of your answers can be "wrong" because they are *subjective*, which means they are opinions (no right or wrong answer). The grade you earn will be based on your effort and how closely you follow the directions. As long as you follow the directions and actually <u>do it</u>, you'll start the class off with an A+!

Who Am I?

Format	Possible Points	Points Earned
photo of student is of good quality	5	
photo of student is attached to the center of an 8 1/2 x 11 piece of paper	5	
all poster items are large enough to be easily seen from 5 ft.	10	
student's full name and answers are written legibly	10	
overall presentation is neat and attractive	10	

Content

identifies favorite sport or extra-curricular activity	12	
identifies favorite type of music or band	12	
identifies favorite movie or TV show	12	
identifies future occupation	12	
identifies favorite book or magazine	12	

Total Earned Points _____
