IMPORTANT! To activate your willSub® account, simply log into <u>www.willsub.com</u> and enter your User ID and PIN. You will be asked to review your account information for accuracy. If you have any questions, contact your building's willSub Administrator or willSub Technical Support at 1-800-319-4278.

The willSub® system is designed to minimize the tasks associated with finding substitutes for staff. As a employee, you can access willSub 24 hours a day, 7 days a week, either by telephone or the Internet. Simply enter your unique willSub® User ID and 4-digit PIN. Once that is done, you simply select the option to enter an absence, enter the date of your absence, the duration you will be gone, and finally the type of absence you are requesting. Through the website, you can even leave class notes for the substitute filling in for you, or attach lesson plans to the absence! It's that fast and easy! The system also has simple reporting features designed to track your absences and view willSub's search progress in securing a substitute for your class. You may also select preferred substitutes, and willSub will attempt to contact these substitutes first whenever you enter an absence request.

On the next several pages, you will find the *willSub® Training Manual*, containing important information and documentation to get you started in using your account.

Welcome to willSub!

How To: Employee General Info

Welcome to willSub®!

Most educators discover that willSub is intuitive and user friendly. After a few minutes of setup, willSub makes the process of covering your classroom or position fast, easy, and accurate.

To begin:

Go to <u>www.willsub.com</u>. The screen will prompt you to review and confirm your account information. You only have to do this once to activate your account, and then you will be able to log in with your User ID and PIN, and go right to your account dashboard.

This training manual is designed to provide answers to your most frequently asked questions, and documentation on performing the most common tasks. If your particular question has not been covered, please call our Technical Support number below for assistance.

Log into the willSub website to verify your information and set your sub preferences(Page 4), further personalize your account(Page 5) and record your voice signature(Page 6). Please complete these three items before the start of the school year so willSub can accurately match your substitute teacher needs.

There are three main things that willSub can do for you:

- 1. Allows you to enter requests for days off.
- 2. Tracks and summarizes your days off at a glance.
- 3. Lets you select your preferred subs and excluded subs.

A few things to remember:

When you enter requests for absences in the system, some requests go to the building administrator for approval(Page 11). Once your request is approved by the proper authority, it will then be released to system to be covered by a substitute.

All approved absences will be displayed on you account dashboard(Page 4).

Within the willSub system, you can request certain subs to be prearranged and/or preferred for your classroom or position(Page 5), and depending on your school district's policies, you may be able to exclude specific substitutes as well.

How To: Set Up Your Account

Voice Signature

Welcome to the voice signature component of willSub®. This will allow the substitute to hear your voice and know exactly which class, location and schedule they will be working that day. Many subs indicate they like to know who they are subbing for so they may prepare accordingly. An example of a voice signature would be: "Greta Montvoy, 3rd grade Art" —it's basically like a voice mail header.

This will take approx. 45 seconds to record, and you will need your User ID and PIN.

- 1. Dial **1-877-945-5782 (WILLSUB)**.
- 2. Enter your User ID followed by #.
- 3. Enter your PIN followed by #.
- 4. Press #9 and record your voice signature at the beep.
- 5. To accept, press #.
- 6. Hang up.

How To: Enter a Request Online

Requests for days off can be entered in two ways:

1. Regular—when you need willSub® to find a sub for you.

2. Prearranged—you and the sub have already agreed upon a date they will work for you.

To add a new regular request:

Go to Requests Click New Regular Request A regular request is entered when you need willSub to find a substitute to cover your class or position. Once confirmed, the system will immediately look for a sub based upon your preference list, unless the request requires approval from the school. Each request lets you add notes for the substitute and/or administrators. *Files for lesson plans can also be attached to the request after it is entered.*

To Add a Prearranged Absence:

Go to Requests Click New Prearranged Request Entering a prearranged request is the same as a regular request, except a specific substitute is selected to fill in on your day off. The same approval rules apply to prearranged requests, so if the type of leave you select requires school approval, the request will not go through until it is approved. **Contact the substitute first to confirm their availability and interest. Once a prearranged request is entered, willSub will send the sub a confirmation email.**

How To: Review and Manage Requests

Request Review and Confirmation

After entering the request information and selecting 'Continue', the request will be presented for your review. If all details are correct, select 'Finish' to finalize the request. Depending on the type of request, it will be designated as either 'Approved' or 'Pending'.

To view your requests pending approval:

Go to Requests Click Pending Requests It's a good idea to regularly check the status of your pending requests. If they are still pending, a building or district administrator needs to review and approve them—they will not go to willSub for processing without approval. **Once your pending request is approved, you will receive an email update.** A sick leave typically does not require approval and is released immediately for processing. This assures that when you request a sick day the morning of or the night before class, willSub will get right on it and find you a sub!

You can upload a lesson plan for the substitute covering your absence as well as add or edit notes for your school and/or the sub. You can also cancel the absence if you no longer need the day off (depending on district policy). You will be asked if willSub should notify the sub of the cancellation. When you click 'Yes", the sub will receive phone calls and an email alerting them of the cancellation. Anytime a change is made to an absence request, you will receive an email update. Absences <u>cannot</u> be cancelled after the <u>starting time</u> of the request.

Reports Menu:

Go to Reports Click Request Summary

Choosing the Request Summary Report will produce an analysis of all leave requests entered for you during the school year. You will see the number and percentage of total requests broken out by day and month as well as the number and types of leaves taken. Additionally, you will see each individual request entered, showing the specific details of the request. *If you use up your allocation of an absence leave type, willSub will not let you enter another one; you will need to enter a different absence type to process the request.*
