Maple Valley Parents,

Three times a year, Maple Valley Schools is required to check in with our students to see how they are doing academically, socially, and emotionally. For our 3rd through 12th grade students, we use a 10 minute survey called Social, Emotional, Academic Behavior Rating Scale or *MySAEBRS* for short.

For our students who attend Fuller Street (Kindergarten-2nd grade) our teachers will be assessing their students through academic, social, and emotional data categories. SAEBRS survey is kept confidential and only a limited number of staff have access to the raw data. Most of the staff only see the percentages by grade or by school level.

The *MySAEBRS* survey is used to help our students focus on their education and to help remove social and emotional barriers from learning. Sometimes that involves building social or emotional skills such as getting along with others or dealing with stress. The *MySAEBRS* survey allows Maple Valley to focus our resources on priority skills first so that our academic studies are more effective.

Maple Valley wants all of our students and families to feel comfortable with the *MySAEBRS* survey. If you have any questions regarding this survey, please reach out to your school counselor for additional information. We are always happy to provide information to families that will better assist all of us in making the best choices for everyone involved.

Please talk to your child about participating in the *MySAEBRS* survey. The window opens Monday, January 29th and closes Friday, February 2nd, 2024. The survey will be available through student email and the link can only be used once. Students will have a chance to complete this survey during the school day.

Again, please feel free to reach out to your school's counselor if you have any questions.

A link to the *MySAEBRS* survey and its questions can be found on the district website.

Thank you,

Maple Valley Schools Counseling Staff
