## VISION STATEMENT

The Orange Public Schools will ensure that all students, parents, professional and support staff will be empowered to make schools effective places for learning, where students can realize their full potential while becoming confident, caring, and articulate members of society, and in turn foster a better community.

## MISSION STATEMENT

The Orange Public Schools will "dare to make a difference" believing that all students can learn in an environment that fosters a comprehensive educational program created for a diverse, urban student population.

The District will prepare the students with the knowledge, skills, and intellectual curiosity that are associated with learning, allowing them to successfully enter college, specialized training programs or compete in the open job market.

To achieve this goal, the Orange Public Schools are committed to creating an educational climate for students that is conducive to learning, attaining mutual respect, and caring for one another.

The District encourages a professional atmosphere, characterized by collaboration and cooperation, which enables staff members to perform at their optimum levels.

The District will encourage educational partnerships between the Board of Education, staff members, parents, students, the business community, and city government in order to develop specialized and diversified educational programs.

## Statement of Philosophy

“Language and communication are at the heart of the human experience. The United States must educate students who are equipped linguistically and culturally to communicate successfully in a pluralistic American society and abroad. This imperative envisions a future in which ALL students will develop and maintain proficiency in English and at least one other language, modern, or classical.”

-Standards for Foreign Language Learning:  
Preparing for the 21<sup>st</sup> Century

## New Jersey World Language Core Curriculum Standards

In 1995, New Jersey enacted the *Strategic Plan for Systemic Improvement of Education* to ensure the development and assessment of rigorous academic standards throughout the state. On May 1, 1996, the New Jersey State Board of Education adopted 61 core curriculum content standards in seven academic and five workplace readiness areas. The inclusion of two world language standards represented a key moment in the “evolution” of the study of world languages in New Jersey. For the first time in this state’s history, World Languages was recognized as an **essential component of the core curriculum for all students**. The study of world languages has assumed a new role as an integral part of the school curriculum that, as in other content areas, will span the entire spectrum of K-12 education. This new scope and sequence of language instruction emphasizes knowledge about second language acquisition, the importance of communication, and the relationship between culture and language as a new basis for program development. The ability “to communicate at a basic literacy level in at least one language other than English” (Standard 7.1) and “to demonstrate an understanding of the interrelationship between language and culture” (Standard 7.2) is now considered to be one of the hallmarks of a well-educated citizen in the state of New Jersey.

## Acknowledgments

The World Languages Curriculum Writing Committee will like to express our appreciation and gratitude to Mrs. Jacqueline Molé-Hsieh, World Languages Supervisor, for her commitment, dedication, guidance and support in the creation of this curriculum. Her hard work and dedication is a reflection of the production of this curriculum.

Our gratitude is also extended to Mrs. Candace Goldstein, Director of Special Programs and Mrs. Claudette Rogers Director of Curriculum and Testing, for their additional support in this process.

## Dedication

We dedicate this curriculum to the children of Orange whose lives we hope to touch forever by introducing them to other languages and cultures that will expand their horizons, broaden their knowledge, and enrich their lives.

## Introduction

The World Language Curriculum 4<sup>th</sup> to 8<sup>th</sup> grade has been written to serve as a guide to ALL the languages taught in the Orange Public Schools.

This Curriculum is based on Thematic Units. There are four thematic units for each grade. All thematic units contain different topics that have been compiled and carefully planned to create a theme.

All thematic units have time lines and a final assessment for the completion of the theme. The summative assessment consists of a final project that is based on a written and oral presentation. A rubric has been created to evaluate the final project of each theme.

The format of this Curriculum consists of:

- *Scope and sequence*: each topic outlines the vocabulary and activities for the teacher to follow.
- *Culture*: cultural capsules (perspectives, products, practices) from the target countries relevant to the theme have been incorporated to each unit.
- *Content Connections*: connections of content disciplines that are studied in the unit are outlined.
- *Grammar*: general grammar points are suggested to the languages that may apply.
- *Assessment formative & summative*: formative assessments are suggested after each topic throughout the unit. A summative and final project is provided for the completion of each unit.
- *Resources*: materials needed during the unit are suggested.
- *Technology*: the use of technology and research based projects are recommended and incorporated in each unit.

**NJ Standards/Progress Indicator** 7.1A.1 7.1A.5 7.1B.1 7.1B.3 7.1C.2 7.2A.1

* Teacher provides a working sheet with blank clocks. The teacher will dictate to students the time for each blank clock. * Students will be called up to practice the time. They will set the time on the clock according to the time the teacher calls out. * Students will research the time difference of several countries according to their location.		Action words: 1. To count 2. To tell 3. To go 4. To visit
<b>Schedule</b> * Introduce and review vocabulary words for school subjects (math, reading, art, languages, music, science, social studies, recess, technology, etc). * Teacher introduces how to state what to do at different times of the day. (I go to art at two fifteen). * Teacher calls out times and subjects and students create illustrations to match what the teacher said. * Students work in pairs stating what classes they go to at different times of the day. * Teacher models how to create a written schedule using subjects and time and students compose a weekly or daily schedule following the guide.

## ***What time is it? in Power Point***

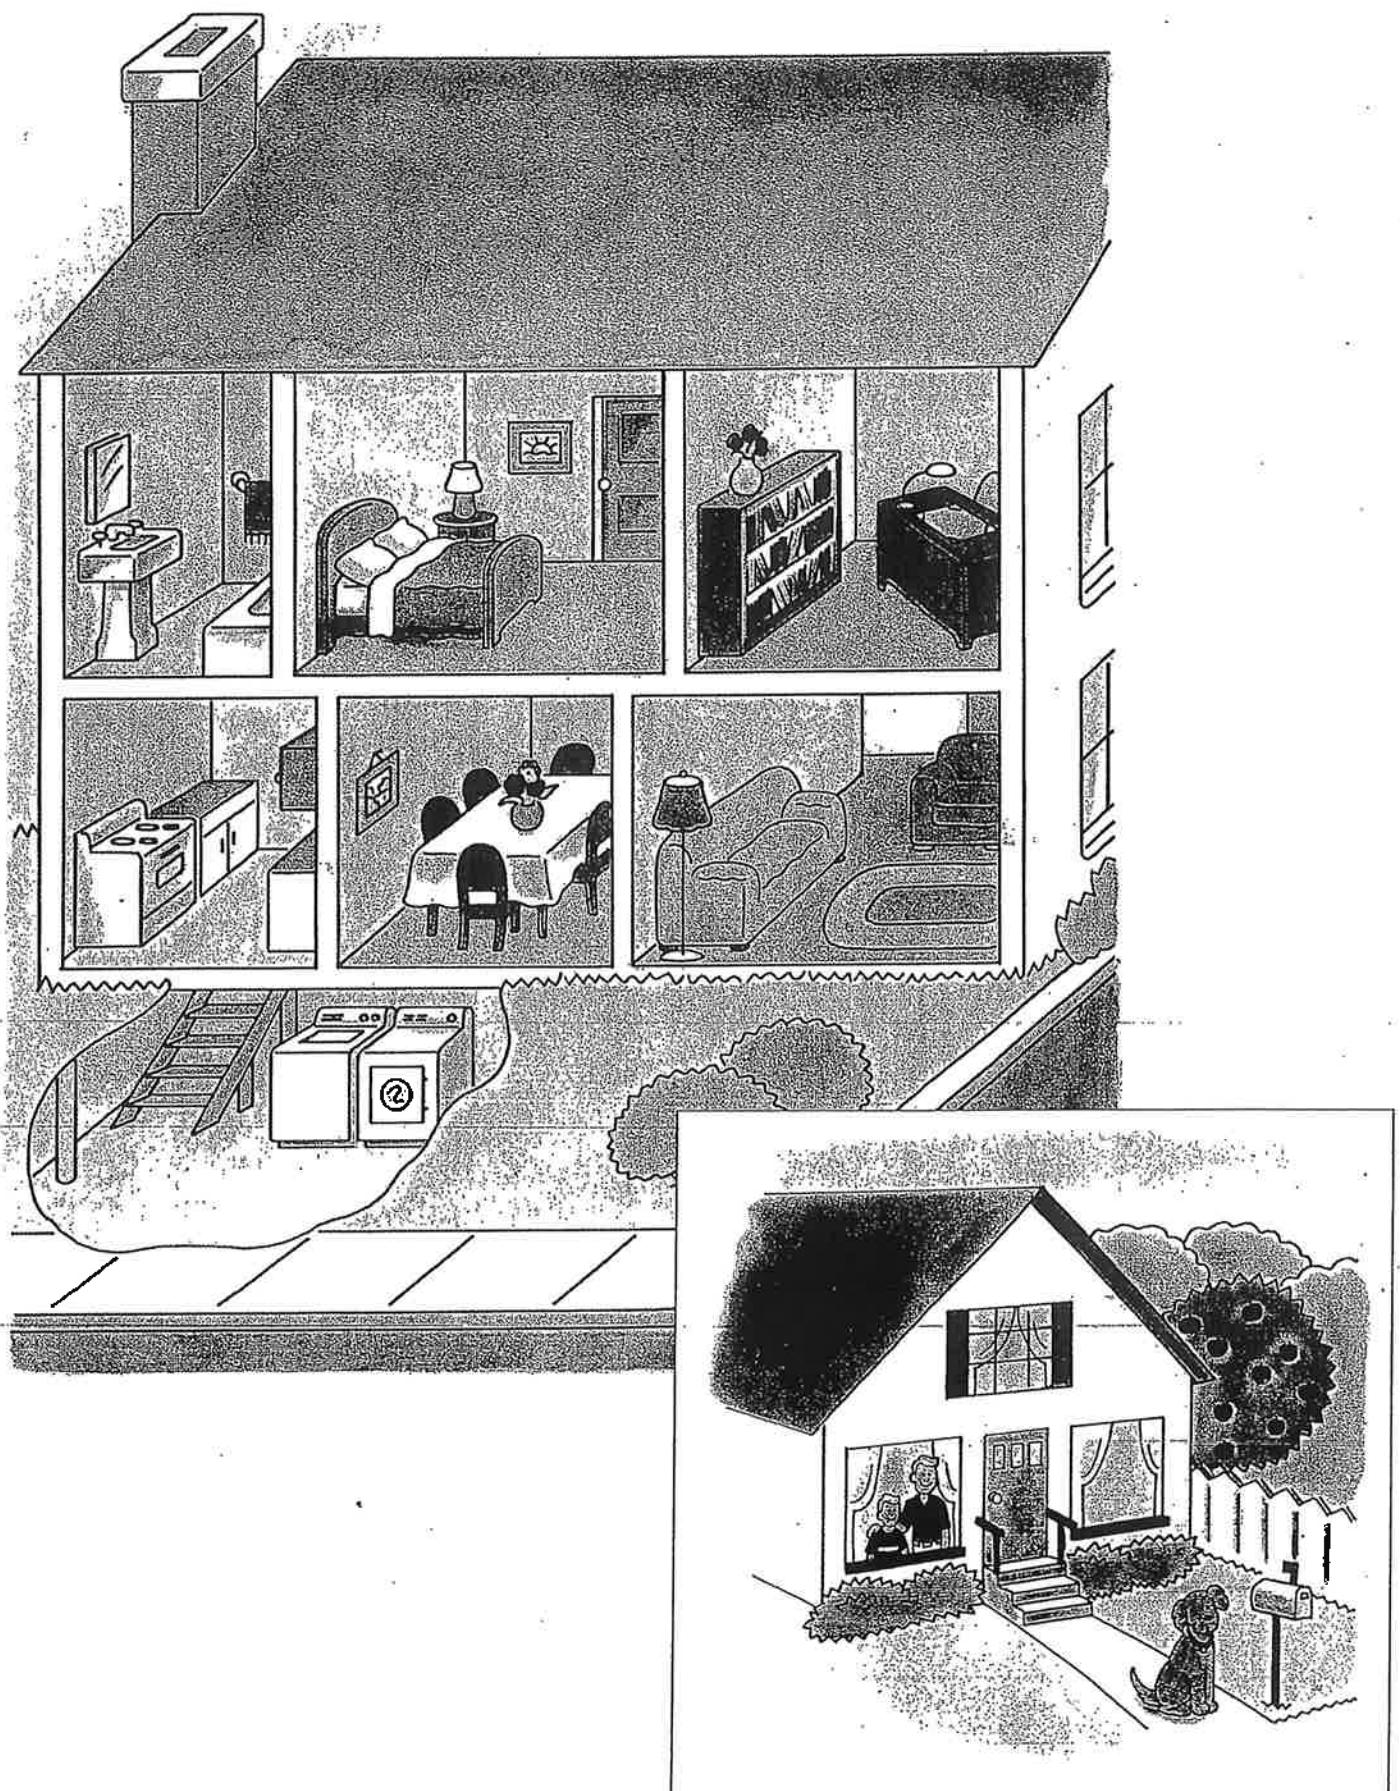

Points	Vocabulary	Artistic	Verbal presentation
<b>5</b>	90% or more of intended vocabulary was used for house, city and time.	Very artistic. Power point presentation clearly illustrated target vocabulary for the city. Great special effects.	Excellent speech. Presentation was delivered smoothly stating time and locations 90% of the time or more.
<b>4</b>	Most target vocabulary was used. 80% or more vocabulary was used for house, city and time.	Good visuals. Power point was used to illustrate 80% of the intended places of the city. Good special effects.	Good presentation with some hesitation. Some places were missing but didn't affect presentation.
<b>3</b>	Some target vocabulary was used. Only about 50% vocabulary was used.	Only about 50% of the places of the city are illustrated in power point presentation. Special effects were repetitive..	Shaky presentation with noticeable verbal doubt. Errors in telling time and locations around the house and city.
<b>2</b>	Almost no target vocabulary was used. Less than 40% was used.	Almost no art. Less than 40% of the target places are presented in the presentation. Almost no special effects were used.	Almost no verbal communication. Not enough information about their whereabouts in the house or city.
<b>1</b>	No target vocabulary was used.	No power point presentation.	No verbal presentation.
