

Team Work

To become a brilliant Scientist, it is important to work well as a team.

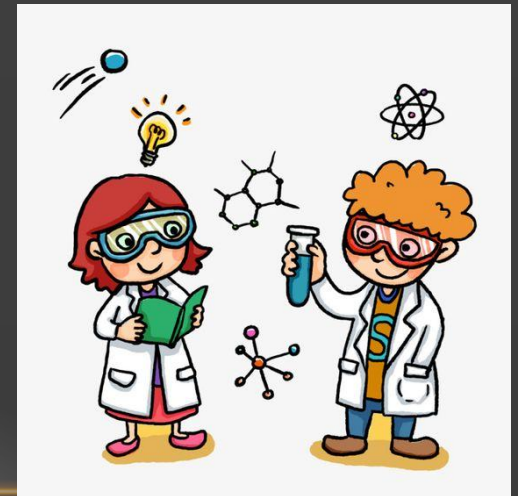

Discuss with your partner how you have worked together superbly well in today's lesson.

Reliable Results

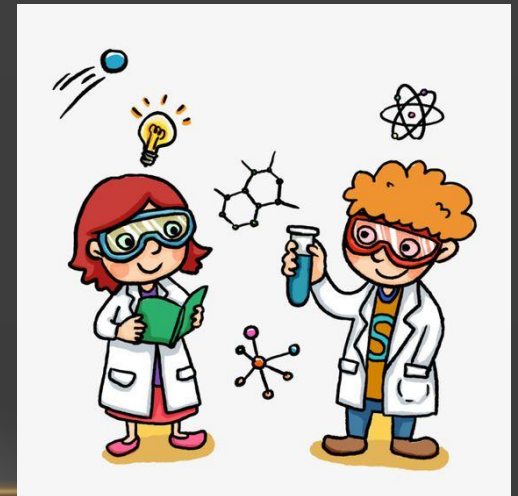

Being a methodical Scientist, it is imperative to set and follow instructions to produce reliable results.

Create a set of instructions for today's learning which another pupil could follow.

Key Question

Fantastic Scientists answer significant questions.
What key questions would you ask to find out whether
someone has understood today's lesson?

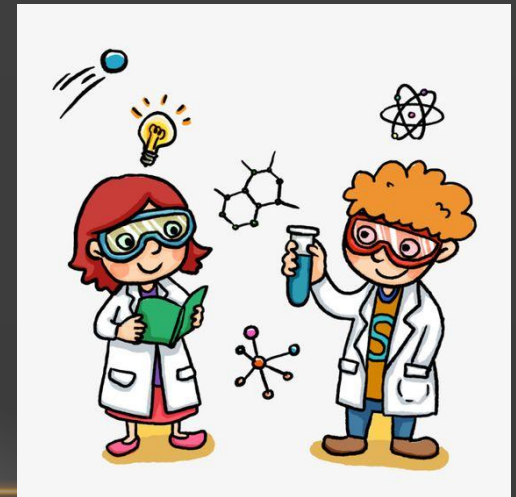

Objectives

Have an goal and aim for that goal, just like every outstanding Scientist.

Look back at your learning objectives.

Have you met them?

How?

Become Better

Scientists work smarter to become better and come up with new and different ideas.

How might you improve your learning next lesson?
