

## ZOOLOGY WEB PAGE PROJECT

### YOUR TASK IS TO:

1. Choose a specific animal to find out about.
2. OK animal choice with teacher.
3. Collect information about that animal.
4. Create a PREZI about your animal to share info you discover.

You will have 3 days in the computer lab to build your webpage (May 23, 24, 29). Prezi can be accessed from any computer so you can work on your project outside of class. When your project is complete, send me the link.

GO TO: <http://prezi.com>

Create a login/password

### GRADING CRITERIA:

#### CONTENT:

Information is accurate.

Content from "What to include on your page" is included

Put it in your own words

(copying or cutting and pasting from books, websites, etc.  
without citing sources is plagiarism!)

#### APPEARANCE:

Includes pictures, use of color, *easy to read font*

#### MECHANICS

No spelling errors

Correct grammar

#### TECHNICAL

All links, bookmarks, navigation tools work.

#### SOURCES:

All sources used are listed.

## WHAT TO INCLUDE ON YOUR PREZI:

### Classification

Give: Kingdom, phylum, class, order, family, genus, species for your animal

### General info about the animal

What does it look like? Size? Ecto or endothermic? Does it migrate?

Hibernate? Estivate? What special features does it have? How many are there in the wild? Does it provide a service to humans (ex: fertilize crops, medical)?

Does it have any special requirements?

### HABITAT:

In what kind of habitat does it live? (ocean, forest, jungle, desert, etc)?

Where in the world would you find it? (North America, South Dakota, Asia, etc)?

### DIET:

What does it eat? Carnivore, herbivore, omnivore, scavenger?

### Reproduction:

How does it reproduce? Internal/external fertilization? Ovo-, vivo-, or ovoviviparity? Does it live in a group? Take care of its young? Have one lifetime mate?

### Human Impact:

Have humans had an impact on their population? How? Are they endangered?

Threatened? Are we doing anything to help?

### Include some pictures

You can also include video links in Prezi

### WEBLINKS

Find some websites with info about your animal that you can link to your site.

### SOURCES

List ALL sources used in your project

GOOGLE IS NOT A SOURCE!
